Title	The Convention refugee determination process in Canada
Author, Place of publication, Publisher, Date of publication, Pagination	by M. Young. Ottawa : Library of Parliament, Research Branch, 1987. 13 p. Bibliogr. (Current issues review ; 86-26E) <i>French ed. (La reconnaissance au Canada . . .) on the same fiche.</i>
Series statement	ISBN 0-660-12567-6 MICROLOG 88-00800 1 fiche
Notes	
ISBN	
Microfiche	
Accession Number	
Abstract	The increase of refugee status claiming immigrants in Canada has led to a review of the immigration policy concerning this group. This report looks at the weaknesses of current legislation which is linked to the Geneva Convention and its Protocol, studying Canada's past adherence to the rights afforded under its protection. Also discusses public and government opinion on support for a humanitarian and generous refugee policy and questions of balancing efficiency with procedural fairness to claimants. Gives a chronology of events since 1969.

Résumé	Le processus de reconnaissance du statut de réfugié au sens de la Convention de Genève, tel qu'il est énoncé dans la Loi sur l'immigration, sert à déterminer si les personnes qui revendiquent ce statut y ont effectivement droit et peuvent bénéficier de la protection accordée aux réfugiés au sens de la Convention. Ce processus s'est avéré inadéquat, tant au point de vue juridique que pratique. Dans ce bulletin, on examine les mécanismes en vigueur actuellement et le projet de réforme contenu dans la loi C-55 déposé en mai 1987.

INTRODUCTION

Microlog: Canadian Research Index puts all of Canada's hard-to-find government and research literature at your fingertips. This monthly indexing, abstracting and document delivery service covers all levels of government in Canada, as well as institutions receiving research grants. Most titles included in **Microlog** are available in either paper or microfiche format. Combined with a microfiche collection, the **Microlog Service** is a powerful tool for finding Canadian report publications. The unique **Microlog Accession Number** is the key to immediate retrieval of any document.

SCOPE

Among other documents, **Microlog** includes research papers in physical, natural and social sciences, policy papers, important statistics, and annual reports. Every effort is made to ensure the currency of the index. For instance, documents appearing in the Checklist of Canadian Government Publications are delivered by **Microlog** approximately two months after publication of the list.

LANGUAGE POLICY

Documents issued in English or French are indexed and abstracted in the language of publication, while bilingual documents are indexed and abstracted in both languages.

SOURCES AND COVERAGE

Federal Documents: The **Microlog** editors review all checklists issued by the Canadian Government Publishing Centre and order every document relevant to the service. Except for serials, maps, pamphlets, and manuals, all monographs covered by the Federal Depository Plan are included in the index. Also, a special effort is made to track down elusive but important titles which do not appear in the lists.

Microlog offers a special collection of documents published by the Federal Government but not issued through the Federal Depository Plan. These titles, available to subscribers as the Non-Depository Publications collection, are indicated in the Titles section by a bullet (•). **Microlog** is also the direct distributing agent for many government bodies.

Provincial Documents: Depository arrangements with several provincial libraries have been established to ensure that **Microlog** subscribers receive all publications from those provinces. Where no depository arrangement exists, all publications lists issued by the province are reviewed for acquisitions.

Municipal Documents: Since these titles are very difficult to obtain, the **Microlog** editors make special efforts to include publications from municipal sources.

ACCESS

The Index provides access by subject, corporate or individual author, and series title.

The full **Microlog** file from 1979 to date, consisting of almost 50,000 records, is available online through Can/OLE. This is an ideal way to locate hard-to-find reports which may then be ordered directly online through the Can/DOCS service. Contact: Can/OLE Client Services, CISTI, Ottawa, Ontario, K1A 0S2.

FEATURES

Microlog comprises the following sections:

1. **Titles and abstracts:** A full bibliographic citation and a descriptive abstract for each title.
2. **Name Index:** Access by personal author, corporate author, and conference name.
3. **Series Titles:** Lists by title and number all reports in series in the service; series are available as an ongoing subscription or retrospective collection.
4. **Subject Index:** Descriptors based on Library of Congress and Canadiana Subject Headings are assigned to each document. A cross-referencing structure assists searchers.
5. **Microfiche collections:** Lists contents of each fiche collection for quick reference. These collections can be used as current awareness lists in broad subject areas to notify users of new acquisitions. This section is included in the annual cumulation as a separate fiched product.

MICROLOG AND CANADIAN STATISTICS INDEX

Statistical Material: The **Canadian Statistics Index (CSI)** provides further access to statistical material contained in **Microlog** monographs and special or annual reports. The CSI identification number has been included with the **Microlog** citation for the convenience of subscribers to the CSI fiche collection.

Annual Reports: Storage of annual reports in a single sequence has been a problem for clients in the past. The CSI numbers for annual reports are now listed in the bibliographic citation and appear on the microfiche header of each report, to make such sequencing possible.

DOCUMENT DELIVERY

Institutions may subscribe to complete or partial collections of the documents in **Microlog**. Individual copies on microfiche or paper reprint may be ordered through Micromedia's Document Delivery Service. To order, please contact:

INTRODUCTION

Microlog: Index de recherche du Canada met à votre disposition toutes les publications du gouvernement et les travaux de recherche difficiles à se procurer. Combiné aux collections sur microfiches, le service **Microlog** constitue un outil très efficace pour retrouver les publications des différents gouvernements du Canada, ainsi que celles des organismes qui reçoivent des subventions pour la recherche. **Microlog** est aussi un service de livraison de documents, sur microfiches ou sous forme imprimée.

CONTENU

Microlog contient entre autres des recherches en sciences physiques, naturelles et sociales, des énoncés de politique, des statistiques et des rapports annuels. Par l'intermédiaire du service **Microlog**, on peut obtenir les documents qui figurent sur la Liste des publications du gouvernement du Canada environ deux mois après leur parution sur cette liste.

POLITIQUE LINGUISTIQUE

Les ouvrages publiés en français ou en anglais sont indexés et résumés dans la langue de publication; les ouvrages bilingues sont traités dans les deux langues.

SOURCES

Publications fédérales: Les rédacteurs de **Microlog** examinent les listes émises par le Centre d'édition du gouvernement du Canada et commandent les documents pertinents. En dehors des publications en série, cartes, brochures et manuels, toutes les monographies régies par le Programme de dépôt du gouvernement fédéral figurent dans l'index, ainsi que des ouvrages importants ne figurant pas sur les listes.

Microlog propose aussi une collection spéciale de publications fédérales non déposées, identifiées par un point (●) dans la section Titres et résumés. **Microlog** est aussi l'agent de diffusion de nombreux organismes gouvernementaux.

Publications provinciales: Des ententes de dépôt ont été conclues avec plusieurs bibliothèques provinciales pour que les abonnés de **Microlog** reçoivent toutes les publications de ces provinces. Lorsqu'aucune entente n'existe, les listes de publications émises par les provinces sont examinées afin d'acquiescer les documents.

Publications municipales: Ces ouvrages étant difficiles à se procurer, les rédacteurs de **Microlog** redoublent d'ardeur pour les inclure dans l'index.

ACCÈS

L'index imprimé est bilingue et les publications sont répertoriées par sujet, par auteur (collectivité et personne physique) et par titre de collection.

Le fichier complet de **Microlog**, de 1979 à aujourd'hui, contient près de 50,000 notices et est accessible sur

Can/OLE. Il s'agit d'un moyen idéal pour mettre la main sur des rapports difficiles à trouver qu'on peut commander par l'intermédiaire du service Can/DOCS. À ce propos, veuillez vous adresser au Service à la clientèle Can/OLE, ICIST, Ottawa (Ontario), K1A 0S2.

ORGANISATION DE L'INDEX

Microlog est divisé en cinq sections:

1. Titres et résumés: tous les titres sont catalogués et accompagnés d'un résumé descriptif.
2. Index des noms: donne un accès par auteur, collectivité-auteur et titre de conférence.
3. Titres de collections: tous les rapports publiés en série sont classés par titre et numéro. Ces collections peuvent être commandées individuellement.
4. Index des matières: les descripteurs permettent de trouver facilement les publications pertinentes; un réseau de renvois facilite la recherche.
5. Collections de microfiches: chaque collection apparaît dans une section séparée pour faciliter la recherche. Ces listes peuvent aussi servir à renseigner les usagers sur les nouveautés. Dans la refonte, cette section est insérée sous forme de microfiches.

MICROLOG ET L'INDEX DES STATISTIQUES DU CANADA

Données statistiques: L'Index des statistiques du Canada (CSI) constitue une autre source de référence sur les statistiques contenues dans certaines publications indexées dans **Microlog**. Celles-ci ont un numéro d'ordre spécial qui est inclus dans la référence bibliographique.

Rapports annuels: Afin de rendre le classement des rapports annuels plus facile, le numéro d'ordre CSI correspondant à ces documents figure maintenant dans les références bibliographiques et est inscrit sur les en-têtes de microfiches.

LIVRAISON DE DOCUMENTS

On peut s'abonner à l'ensemble ou à certaines des collections de documents de **Microlog**. On peut également commander des reproductions de documents sur microfiches ou sur papier par l'intermédiaire du service de livraison de documents de Micromedia. Pour commander, communiquer avec:

Micromedia Ltée

165, Hôtel de Ville, Hull (Québec), J8X 3X2

Sample CRI Search

*"How can a person from a foreign country
qualify for refugee status in Canada?"*

The researcher can search in CRI as in any library catalogue - by subject, author and title.
Because the index is bilingual, searching can be done in English or in French.

Recherche type avec IRC

*"Comment une personne d'un pays étranger
peut-elle demander le statut de réfugié au Canada?"*

La méthode de recherche dans IRC est la même que dans une bibliothèque, puisque les documents sont indexés par auteur, par sujet et par titre. L'index étant bilingue, la consultation peut se faire en français ou en anglais.

STEP 2/DEUXIÈME ÉTAPE

A unified search strategy

The search strategy should include all the monthly issues. Start with the most recent issue and work back. Monthly issues are cumulated annually.

Établir une stratégie de recherche unifiée

La stratégie de recherche doit tenir compte de toutes les publications mensuelles, à commencer par les plus récentes. Chaque année, ces publications font l'objet d'une refonte.

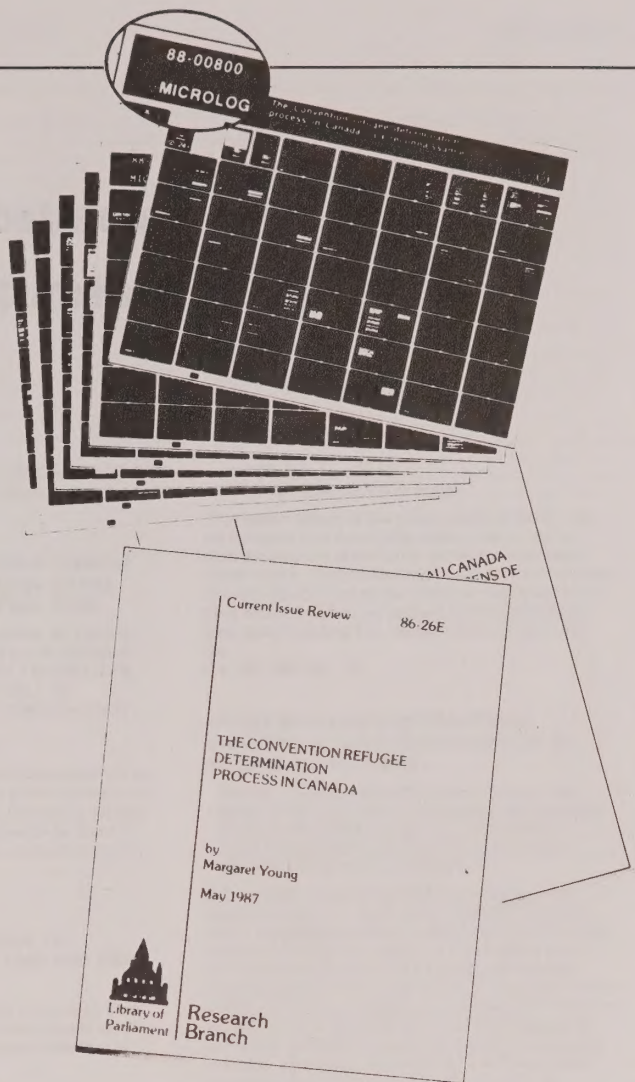

STEP 3/TROISIÈME ÉTAPE

Retrieve the publication

Each bibliographic citation gives a full description of the relevant document. Locate the document by the microfiche number in the library's collection or order from Micromedia. Individual publications are available for purchase on microfiche or paper. The bibliographic description provides publisher source information.

Repérer la publication

Chaque notice bibliographique comprend une description complète du document; celui-ci peut être repéré grâce au numéro de microfiche de la bibliothèque; sinon, il faut le commander à Micromedia. On peut se procurer les monographies sur microfiches ou sur papier. La description bibliographique comporte également des indications sur l'éditeur.

1,2-dichlorométhane

Ottawa : Santé Canada ; Environnement Canada, 1994. v, 39 p. : *Bibl.* (Liste des substances d'intérêt prioritaire, rapport d'évaluation / Canada. Environnement Canada et Canada. Santé Canada) ISBN 0-662-98899-X GCC-E no En40-215/38F MICROLOG 94-06781 (1 fiche)

Le 1,2-dichloroéthane est utilisé au Canada principalement comme intermédiaire dans la synthèse du chloroéthylène et, en faible quantité, dans la fabrication de fluides antidétonants destinés à l'exportation. Ce document présente un rapport d'évaluation sur cette substance et fournit un sommaire des informations essentielles pour l'évaluation de la toxicité, une évaluation de la toxicité au sens de la Loi canadienne sur la protection de l'environnement, et des recommandations pour la recherche et l'évaluation.

1993 environmental scan : evaluating our progress toward sustainable development

Peat Marwick Stevenson & Kellogg. Vancouver, BC : Canadian Council of Ministers of the Environment, 1993. iii, 129 p. : *ill., Bibl.* (Report / Canadian Council of Ministers of the Environment ; CCME-SPC-74E) ISBN 1-895925-18-5 MICROLOG 94-06357 (2 fiche)

The council prepared its first strategic plan in 1991, then updated it in 1992. A second update is planned for 1993. This document outlines the key environmental issues that will affect Canadians in the near and long-term future and discusses a range of approaches to address these issues. The scan identifies major opportunities for integrating environment and economy; environmental issues and trends of importance in the United States, Europe, and other countries that could influence the environmental agenda in Canada; emerging social, demographic, economic, scientific, technological, and political factors that may influence environmental issues and trends in the next three to five years; barriers and opportunities of strategic importance for the council during the next three to five years; and long-term trends that may affect the

work of the council in the future, and that may require strategic analysis in the medium term.

Accelerated aging and testing of rubber inserts for spacer damper clamps

By H.A. Ewing. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Transmission Section, Line Hardware Subsection, 1994. 8 p. : *ill., Bibl.* *Presented at Electricity '94 : a new energy order.* MICROLOG 94-06567 (1 fiche)

Spacer dampers on Ontario Hydro's 585 kcmil ACSR four-bundle conductor 500 kV transmission lines have caused conductor damage due to loose clamps. This was remedied by replacing the steel keepers and clamping fasteners with new keeper assemblies; however, alternatives were sought for future lines. A clamp type that uses silicon rubber inserts to grip the conductor was selected for evaluation. Concerns that aging of the rubber insert under service conditions might diminish its grip on

the conductor led to a review of accelerated aging testing and subsequent test on the insert material and the clamp/conductor assembly. This paper presents a brief summary of the spacer damper history and requirements followed by a review of accelerated aging techniques and the test programs carried out.

Achieving atmospheric quality objectives through the use of economic instruments : a final report of the Economic Instruments Collaborative

Ottawa : National Round Table on the Environment and the Economy, 1993. 110 p. : *Bibl*. ISBN 1-865643-26-0
MICROLOG 94-06688 (2 fiche)

The Economic Instruments Collective (EIC) was formed in 1992 to focus intensively for a short time on ways to use market forces to better protect the environment. The EIC formed three working groups to consider the air quality issues of acid deposition, ground-level ozone, and climate change. This document presents the full reports and recommendations of each working group, including controlling acid deposition through emission trading, reducing ground level ozone through cap-setting and management, and limiting greenhouse gas emissions through a carbon dioxide charge on large stationary sources and an offset mechanism credited against emission charges.

Adapting controllable series capacitors to different transmission purposes

By L. Angquist, P. Halvarsson and H. Othman. Montreal : Canadian Electrical Assn, Engineering and Operating Division, 1994. 11 p. : *ill*. *Presented at Electricity '94 : a new energy order*. MICROLOG 94-06559 (1 fiche)

The structure of the transmission networks of power systems leads to several operational challenges that may be helped by appropriate forms of series compensation technology. Thyristor-controlled series capacitors, thyristor-switched series capacitors, and mechanically-switched series capacitors provide a proven technology that can address the different needs of the transmission system. This paper presents several transmission objectives, and the corresponding appropriate forms of controlled series compensation that meets these objectives.

Addition of a distributed control system at Lambton Generating Station

By K. Borovszky ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Thermal and Nuclear Power Section, Station Control and Instrumentation Subsection, 1994. 20 p. : *ill*. *Presented at Electricity '94 : a new energy order*. MICROLOG 94-06533 (1 fiche)

As part of Ontario Hydro's rehabilitation of Lambton Generating Station, a modern distributed control system was added to the plant. The project was successfully concluded through the adoption of a philosophy of zero-defect engineering adopted by the team of Ontario Hydro, the consultant Stone & Webster Canada Ltd., and the controls vendor Elsas Bailey Inc. This paper discusses the role of the team members, describes the engineering approach adopted, and analyzes some of the key factors contributing to the success of the project.

Adequacy evaluation of generating systems containing WECS using simulation techniques

By R. Billinton, X. Cao and R. Ghajar. Montreal : Canadian Electrical Assn, Power System Planning and Operation Section, Power System Protection Subsection, 1994. 17 p. : *ill.*, *Bibl*. *Presented at Electricity '94 : a new energy order*. MICROLOG 94-06555 (1 fiche)

A wind energy conversion system (WECS) has a different impact on the reliability performance of a generating system than does a conventional energy conversion system because of the variation of wind speeds and the dependencies associated with the power output of every wind turbine generator (WTG) in a wind farm. The actual contribution of a WECS to the reliability of a generating system

depends upon the degree of penetration, the wind conditions, and the operating philosophy. This paper presents a simulation procedure leading to a reliability estimation of generating systems with WECS, taking into account the fluctuating nature of the wind power and incorporating recognized dependencies. A small educational reliability test system is used to illustrate the proposed method.

An Aerial survey of red pine plantations for Sirococcus shoot blight

Truro, NS : Dept. of Natural Resources, Forestry Branch, Forest Research Section, 1994. 8 p. : *ill., Maps, Bibl.* (Forest research report / Nova Scotia. Forest Research Section ; no. 46) *At head of title: Canada-Nova Scotia Cooperation Agreement for Forestry Development.*
MICROLOG 94-06331 (1 fiche)

A total of 849 red pine plantation diagrams were collected from the forest community and sketched onto 1:50,000 scale topographic maps. An aerial assessment was conducted beginning in the western counties in October 1990 and continuing eastward through to February 1991. Visual assessments were made for occurrence and severity of symptoms according to the average percentage of shoots affected per infected tree. General assessments on the height of plantations were also made, and each plantation was labelled as young (less than or equal to 3 m in height), pole (between 4 m and 6 m in height), or immature-mature (greater than 6 m in height). This research provides the results of the survey.

Agricultural capability classification for reclamation : working document

By L.A. Leskiw. Edmonton : Alberta Conservation and Reclamation Council, Reclamation Research Technical Advisory Committee, 1993. x, 97 p. : *ill., Maps (Report / Alberta. Reclamation Research Technical Advisory Committee ; RRTAC 93-13)*
ISBN 0-7732-6039-0
MICROLOG 94-06775 (2 fiche)

The land classification system is used to evaluate pre-disturbance and post-disturbance agricultural land capability for dryland farming. It is designed to aid in planning soil handling procedures and measuring land capability. Soil quality, landscape features, and average climatic conditions are quantified by assigning numerical ratings to individual components, then combining these to produce an overall rating. The document describes the development of the system; inventory requirements; factors for mineral soils, including surface and sub-surface factors, moisture regime, and calculation of mineral soil rating; landscape factors; and climate factors.

Aluminum dross processing in a rotary arc furnace

By M.G. Drouet ... et al. Montreal : Canadian Electrical Assn, 1994. 7 p. : ill., Bibl. Presented at Electricity '94 : a new energy order.
MICROLOG 94-06592 (1 fiche)

Aluminum baths are always covered with a layer of dross resulting from the aluminum surface oxidation. This dross represents from 1-10 mass % of the melt and may contain up to 75 mass % of aluminum. Since aluminum production is highly energy intensive, dross recycling is very attractive from both energy and economic standpoints. The conventional recycling process using salt rotary furnaces is thermally inefficient and environmentally non-acceptable because of the production of salt slags. Hydro-Quebec has developed a new technology using a rotary arc furnace with graphite electrodes. This paper describes that process, including energy and mass balances, results obtained from a 650 kW pilot furnace, and the change from non-consumable to consumable electrode.

Artificial substrata as quantitative sampling devices of benthic macroinvertebrates in flowing water habitats

By R.J. Casey. Vegreville, AB : Alberta Environmental Centre, 1994. x, 64 p. : ill., *Bibl.* MICROLOG 94-06920 (1 fiche)

Field study to compare the use of three types of artificial substrata for the quantitative sampling of benthic macroinvertebrates in lotic habitats with a coarse substratum. Two modifications to the procedures of using artificial substrata were evaluated experimentally by examining macroinvertebrate colonization on artificial substrata, with or without a natural benthic cover of fine sediment and algae, and on artificial substrata that were either embedded or placed on the natural substratum. Macroinvertebrates of the natural substratum were also sampled to compare these organisms with the fauna of the artificial substrata.

Assessment of the impact of internal heat gains on the thermal loads in the residential sector

By A. Moreau and S. Stricker. Montreal : Canadian Electrical Assn, 1994. 19 p. : ill., *Bibl.* Presented at *Electricity '94 : a new energy order*. MICROLOG 94-06604 (1 fiche)

A model was developed capable of tracking heating and cooling requirements in the basement and upper floors of a residence to estimate the net effect of using more energy efficient equipment on total energy consumption. The model was used to estimate the net impact of replacing conventional appliances and lighting with energy efficient models. Simulations were conducted in houses in various areas of Canada.

Avian communities in old-growth and managed forests of western Vancouver Island, British Columbia

By A.A. Bryant, J.-P.L. Savard and R.T. McLaughlin. Delta, BC : Canadian Wildlife Service, Pacific and Yukon Region, 1993. viii, 115 p. : ill., *Bibl.* (Technical report series / Canadian Wildlife Service; no. 167 ISSN 0831-6481) ISBN 0-662-20398-4 MICROLOG 94-06488 (2 fiche)

In 1991, MacMillan Bloedel Ltd., with assistance from Canadian Wildlife Service, began to survey forest birds within old-growth and managed forests on Vancouver Island. This paper describes results

from systematic bird surveys conducted in three areas on western Vancouver Island in 1991. The survey evaluated diversity and relative abundance of forest birds in old-growth forests and regenerating forests of various ages and compared trends in species distribution, diversity, and relative abundance with forest age, vegetation patterns, and geographic location. Study areas were located in three areas between 20 and 700 m above sea-level within the Coast and Mountains within each area, five forest age-classes were examined. Vegetation was measured after all bird surveys were completed for elevation, proximity to coast, basal area, tree density, snag density, canopy height, canopy closure, and woody debris. For each variable, data from four sampling plots were averaged.

Bird diversity, density, and habitat selection in the Cariboo-Chilcotin grasslands : with emphasis on the long-billed curlew

By T.D. Hooper. Delta, BC : Canadian Wildlife Service, Pacific and Yukon Region, 1991. x, 102 p. : *Ill., Maps, Bibl.* (Technical report series / Canadian Wildlife Service ; no. 142 ISSN 0831-6481) CCG-P no. CW69-5/142E MICROLOG 94-06845 (2 fiche)

Grassland bird diversity, density, and habitat selection in the Cariboo/Chilcotin grasslands were examined through a modified spot-mapping technique to census Long-billed curlews and point counts and spot-mapping plots to census other birds. Point count and spot-mapping techniques were analyzed to determine the most effective method for censusing grassland birds. Bird habitat was characterized by vegetation structure and insect availability. Insects were collected by pan, pit-fall, and sticky traps to assess the most effective trapping method. All field work was conducted between 23 April and 27 June 1990. BC CA LS ND SC

Black spruce aerial seeding trial : Red Lake, third year results

By R. Whaley. Thunder Bay, ON : Ministry of Natural Resources, Northwest Region Science and Technology, 1993. ii, 20 p. : *Ill., Maps, Bibl.* (Technical report / Ontario. Northwest Region Science and Technology ; no. 74) ISSN 1192-8654 ISBN 0-7778-2226-1 MICROLOG 94-06328 (1 fiche)

To further examine the applicability of aerially seeding black spruce on upland sites in the Northwest Region of Ontario, a black spruce aerial seeding demonstration trial was established in cooperation with Red Lake District in 1989 to test prescriptions reported by the Canadian Forest Service for aerial seeding of coarse-textured sites in Thunder Bay District on silty upland black spruce sites; and to evaluate the potential of site preparation consisting of a passive TTS disc trencher or light drags for the seeding establishment. This report summarizes the third year results of this trial. FO ON PR SC

Brick veneer/steel stud renovation strategies for wall construction, task 1 : brick ties, options for remediation

Prepared by M.A. Postma, E.F.P. Burnett ; with assistance from Trow Consulting Engineers Ltd. Ottawa : Canada Mortgage and Housing Corporation, Housing Innovation Division, 1992. viii, 76 p. : *Ill.* On cover: *Renovation strategies for brick veneer steel stud construction, task 1 : brick ties.* MICROLOG 94-06707 (2 fiche)

Over the past 10 years, many multi-storey residential buildings using a clay brick veneer/steel stud (BV/SS) enclosure system have experienced problems. Repair is expensive, it is difficult to decide on the level and extent of deterioration and damage and the form and the form and extent of remedial action is uncertain. This research project developed various strategies for the remediation and control or avoidance of problems in existing systems. This report documents work conducted in an exploratory study that identified, demonstrated, and assessed the methods of providing supplemental ties to BV/SS buildings and retrofit procedures that could be conducted from the interior, as well as developing procedures for locating the stud from both the interior and the exterior. Major manufacturers and distributors of masonry tie systems identified those systems that are commercially viable and suitable for tie retrofit in BV/SS systems; actual on-site demonstrations of installation procedures were conducted; wall investigations were conducted to view each repair method; and each retrofit system was compared. Canada's blood program : creating partnerships : report

To the Ministers of Health ; by the Deputy Ministers' Task Force on Blood Issues. Ottawa : The Task Force, 1993. 48 p. *On cover: Federal-Provincial-Territorial Conference of Ministers of Health.*
MICROLOG 94-06483 (1 fiche)

The Task Force was established in September 1993 to review the effectiveness of the management, structure, and function of the Canadian Blood Agency (CBA); to review the effectiveness of the working relationships among the Canadian Blood Agency, the Canadian Red Cross Society, and the Federal Drugs Directorate; and to further investigate the technological and financial risks associated with blood fractionation. This report describes the task force's activities; the issues surrounding Canada's blood system; governance in other jurisdictions; the function and effectiveness of the CBA; the working relationships of the CBA, Red Cross, and Drug Directorate; and blood fractionation and the Red Cross proposal. Recommendations are included. Also included are summary notes on meetings with stakeholders, and an action plan.

Canadian coastal environments, shoreline processes, and oil spill cleanup

By E.H. Owens. Ottawa : Environment Canada, Environmental Protection Service, 1994. xxxii, 328 p. : ill., Maps, Bibl. (Report / Canada. Environmental Protection Service ; EPS 3/SP/5) ISBN 0-662-22131-1 CCG-P no. En 49-14/3-5E
MICROLOG 94-06633 (4 fiche)

This report provides an understanding of the dynamics and physical processes as they vary on the different coasts of Canada, including the Great Lakes. An outline of the general character and processes, on a regional basis, provides a description of the coastal environments and an introduction to the literature that can be consulted for more site or topic-specific information. The likely fate and persistence of oil that reaches the shoreline is discussed to provide the framework for development of spill response strategies and for the selection of appropriate shore cleanup or treatment countermeasures. Recent experiences on the Exxon Valdez and Nestucca spills and studies associated with the Baffin Island oil spill experiment and the 1970 Arrow spill have improved understanding of the range of shoreline oiling conditions that can be experienced. These lessons are integrated into the discussion on the fate of stranded oil and shoreline response options.

Capacity upgrading of Mica and Kootenay Canal powerhouse bridge cranes

By J. Pocher. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Hydraulic Power Section, 1994. 21 p. : ill. *Presented at Electricity '94 : a new energy order.*
MICROLOG 94-06520 (1 fiche)

At the Mica and Kootenay Canal powerhouses, as a cost saving measure during initial construction, generator rotors with a floating rim were chosen to reduce the lifting capacity of the powerhouse cranes and the weight of the supporting structures. Because of B.C. Hydro's Resource Smart program, it was decided to replace the runners to improve the efficiency of the turbines, thus necessitating the upgrading of the cranes from 123 tonne to 191 tonne capacity. This paper describes the justifica-

tion for upgrading, the design considerations, the processes followed for each individual power-house, and lateral loads due to trolley motion.

Co-operative education and the research environment

By J.J. Sharp and J. Whittick. St. John's : Memorial University of Newfoundland, Centre for Cold Ocean Resources Engineering, 1993. 13 p. (C-CORE publication / Memorial University of Newfoundland. Centre for Cold Ocean Resources

Engineering ; 93-26) In *Proceedings of the 8th World Conference on Co-operative Education*. MICROLOG 94-06471 (1 fiche) (Available on fiche only)

The Faculty of Engineering and Applied Science at Memorial University in St. John's, Newfoundland has been operating a cooperative program for engineering students since 1968. Students are employed throughout North America and Europe during their work terms, with many at the Centre for Cold Ocean Resources Engineering (C-CORE). This paper explores the nature of the work undertaken by students who spend a work term at C-CORE and discusses the benefits to the students, to the employer, and to the faculty.

Commissioning a CFB in a utility environment

By D. Campbell. Montreal : Canadian Electrical Assn, Thermal and Nuclear Section, Construction and Commissioning Subsection, 1993. 13 p. : *ill.* Presented at Thermal and Nuclear Power Generation Conference.
MICROLOG 94-06511 (1 fiche)

Adapting to the unique aspects of a circulating fluid bed (CFB) requires some adjustment after commissioning conventional coal fired units. It is necessary to be more aware of the process nature of the boiler and the effect of meeting these requirements on the commissioning schedule. This paper reflects this experience and the steps that have been completed to date on commissioning Point Aconi Unit 1, a 150 MW coal fired generating station. Areas discussed include refractory dry out and bed loading; two separate solid fuel trains, limestone and coal; acid clean; and sulphur dioxide capture.

Current practice of prenatal diagnosis in Canada

Ottawa : Royal Commission on New Reproductive Technologies, 1993. xdx, 622 p. : *ill.*, *Bibl.* (Research studies / Canada. Royal Commission on New Reproductive Technologies ; 13)
ISBN 0-662-21387-4 CCG-P no. Z1-1989-3-42-13E
MICROLOG 94-06708 (7 fiche)

This volume documents in some detail current practices in prenatal diagnosis and testing in Canada today and, in the process, provides answers to many questions raised in the Commission's public consultations. This is done through an analysis of the activities of all Canadian genetics centres providing PND, as well as an analysis of the process by which women are referred to these centres. Other studies in the volume focus not on prenatal diagnostic procedures but on prenatal screening programs. These programs involve a wider range of physicians, often including general practitioners, and the studies examine how such programs have been introduced in Canada and the extent to which, in this wider arena, they conform to the standards established for the introduction of prenatal diagnostic techniques.

Design considerations for oil lift retrofit

By J. Seyler. Montreal : Canadian Electrical Assn, 1994. 17 p. : *ill.*, *Bibl.* *Presented at Electricity '94 : a new energy order.*
MICROLOG 94-06521 (1 fiche)

The retrofit installation of hydrostatic oil lift in the hydrodynamic thrust bearings of vertical water wheel generators can increase bearing reliability and aid in the overall maintenance of the generator. There are significant design considerations that must be addressed to ensure that an oil lift retrofit leads to the trouble free operation of the generator thrust bearing. This paper discusses considerations related to the hydrostatic and hydrodynamic operation of pivoting pad thrust bearings modified for an oil lift. The instrumentation and the control of oil life systems are examined, a typical design is outlined, and the operation of the various system components is described.

Detection of internal faults in distribution transformers

By T. Einarson, N. Cuk and M. Fischer. Montreal : Canadian Electrical Assn, Electrical and Operating Division, 1994. 10 p. : *ill.*, *Bibl.* *Presented at Electricity '94 : a new energy order.*
MICROLOG 94-06606 (1 fiche)

The progress made in controlling the consequences of internal arcing faults in distribution transformers is reflected in the steadily diminishing number of reported incidents. However, re-energizing of transformers containing an undetected fault continues to pose a major safety concern. This paper evaluates a new, patented device that can be used reliably to detect and signal internal faults in oil filled transformers.

Developing a conservation strategy for a heritage building

Manitoba. Historic Resources Branch. Winnipeg : Manitoba Culture, Heritage and Citizenship, HistoricResources Branch, 1994. 96 p. : *ill.* (How-to series / Manitoba. Historic Resources Branch ; 5)
ISBN 0-7711-0905-9
MICROLOG 94-06359 (2 fiche)

This booklet provides the user with a set of guidelines that, if used with knowledge and sensitivity, will result in a conservation project of the highest quality. The guide has been organized to reflect the process involved in a typical conservation project. Ten steps, or sections, have been identified: protection; documentation; location; use; structure; exterior; interior; features and details; contemporary requirements; and looking to the future. Throughout the guide, each section is highlighted on an introductory page that explains its relevance in a building conservation context. Every section has also been divided into subsections that address particular issues associated with that subject.

Development of a commercial radio frequency/vacuum kiln for drying softwood lumber

By R. Swick, B. Neilson and S. Avramidis. Montreal : Canadian Electrical Assn, 1994. 12 p. : ill., Bibl. Presented at Electricity '94 : a new energy order. MICROLOG 94-06593 (1 fiche)

The Council of Forest Industries radio frequency/vacuum (RF/V) kiln project is a \$2.9m investigation into the commercial feasibility of RF/V drying for softwoods by the British Columbia Lumber Industry, B.C. Hydro, the Canadian Electrical Association, Salton Fabrication Ltd., and the Federal Government. This paper describes the laboratory kiln built to investigate the fundamental mechanism of drying and determining how fast softwood lumber could be dried without wood damage and degradation, and the commercial prototype softwood kiln at a West Coast sawmill. Information is on given construction, energy consumption, and drying costs. CA FO PS SC

Development of a prototype expert system for offshore ice management

By M. El-Tahan ... et al. St. John's : Memorial University of Newfoundland, Centre for Cold Ocean Resources Engineering, 1993. 13 p. : ill., Bibl. (C-CORE publication / Memorial University of Newfoundland. Centre for Cold Ocean Resources Engineering ; 93-28) In Proceedings: 2nd National Expert System And Development Workshop. MICROLOG 94-06470 (1 fiche) (Available on fiche only)

To meet the needs of ice management in the offshore industry, C-CORE and CORETEC have developed an operational integrated sea ice and iceberg forecasting (IIFS) and data management system. The IIFS is an integrated software system that has many unique ice management features and is designed to run on an IBM PC compatible computer. As an extension of this work, C-CORE and CORETEC are in the process of designing and developing an expert system for offshore ice management (ExSIM) which will complement IIFS. This paper describes the development of ExSIM, gives an overview of current ice management procedures, and describes the development of the prototype, including its capabilities and the sources of its knowledge. Development of consistent transmission outage data reporting and analysis procedures by Alberta utilities

By A.A. Chowdhury ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operating Section, 1994. 13 p. : Bibl. Presented at Electricity '94 : a new energy order. MICROLOG 94-06564 (1 fiche)

Almost all utilities in North America collect their transmission component forced outage data since forced outage statistics have come an important component of system planning, operating, and maintenance practices. This paper describes the basic characteristics of transmission outage data collection and analysis schemes currently in use at Alberta utilities. An analysis of Alberta Interconnected System (AIS) transmission performance based on 1987-91 data is presented. AL CA EN SC

Development of trapezoidal wire compact conductors in Ontario Hydro

By S.G. Krishnasamy ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Transmission Section, 1994. 18 p. : ill., Bibl. Presented at Electricity '94 : a new energy order. MICROLOG 94-06565 (1 fiche)

Studies covering new compact conductors with trapezoidal wires were begun as part of the refurbishment program in Ontario Hydro because higher ampacities could not be adequately met by existing standard conductors with round wires and higher ampacities were specified for new 230 and 500 kV lines. A series of compact conductors were developed that would be suitable for replacing the aging conductors in the refurbishment program and also suitable for use in new and upgraded 230 and 500 kV lines. This paper discusses the design of the conductors in detail along with laboratory tests on conductors and hardware; analyzes wind tunnel studies and field tests in detail; and describes applications. Diagnostic assessment of problem drivers

By D.J. Beirness, D.R. Mayhew and H.M. Simpson. Ottawa : Transport Canada, Road Safety, 1992. vi, 57 p. : Bibl. French ed. (L'Évaluation diagnostique...): 94-06654/1. MICROLOG 94-06646 (1 fiche)

This report is part one of a two part project. It contains a review of literature on factors associated with risky driving, defined in terms of accidents, violations and risky driving behaviour. The objectives of the review are to: identify the factors most strongly and consistently associated with risky and problem driving; indicate which factors may represent overlapping or related constructs; determine the relative importance of each factor in predicting

risky and problem driving; and, identify the scales or instruments used to assess these factors. Section 2 is an overview of the various methods used to identify problem drivers and to assess driving problems. Section 3 examines the psychosocial and behavioural factors most closely associated with risky driving and driving problems. Finally, section 4 discusses the implications of the findings for driver assessment and driver. CA CI ND SC TR

Le Diagnostic prénatal : aperçu de la question et des personnes en cause

Ottawa : Commission royale sur les nouvelles techniques de reproduction, 1993. 591 p. : Cartes géogr., Bibl. (Collection d'études / Canada. Commission royale sur les nouvelles techniques de reproduction ; 12) L'éd. anglaise (Prenatal diagnosis...). ISBN 0-662-98840-X GCC-E no Z1-1989-3-42-12F MICROLOG 94-06443 (7 fiche)

Dans ce rapport, nous dressons l'historique du DPN sur trois plans. En premier lieu, nous retraçons l'évolution des services de DPN, ainsi que les lignes directrices pertinentes, dans une perspective canadienne; nous décrivons plus particulièrement la recherche canadienne et le rôle de l'État dans la prestation des services génétiques. En deuxième lieu, nous examinons l'historique des réactions et des débats suscités par les progrès accomplis dans le domaine du diagnostic prénatal, notamment parmi la population, les professionnels et les autorités publiques, ainsi que dans les milieux juridiques; nous examinons également l'évolution du débat sur l'incidence du diagnostic prénatal et du dépistage génétique. Enfin, nous présentons le développement et le degré de perfectionnement de chacune des techniques de façon détaillée. Tous ces éléments réunis permettent de comprendre comment les techniques de diagnostic prénatal ont évolué. CA DE LS SC

A Digital algorithm for differential protection of parallel teed transmission lines

By M.S. Sachdev, X. Liu and T.S. Sidhu. Montreal : Canadian Electrical Assn, Power System Planning and Operation Section, Power System Protection Subsection, 1994. 12 p. : ill., Bibl. Presented at Electricity '94 : a new energy order. MICROLOG 94-06549 (1 fiche)

This paper presents an algorithm for differential protection of parallel-teed transmission lines. The technique requires that the sampling of data at the terminals of the line be synchronized. A synchronization technique that can be easily implemented is proposed. The algorithm was simulated on a SUN Sparc C workstation and was tested using the simulated data generated by the EMTDC. Some test results are included. CA EN PS SC

Directory of ocean shipping services 1994

Atlantic Provinces Transportation Commission. Moncton, NB : The Commission, 1994. 64 p. : Maps, Bibl. Cover title: Directory of ocean shipping services between the ports of Halifax, Saint John and world ports including connecting services to and from Newfoundland. MICROLOG 94-06430 (1 fiche)

This directory has been designed to show in a concise and graphic form the ocean shipping services available between the Atlantic Provinces and various world ports. Its main purpose is to assist regional exporters in locating the services best suited to their needs and to promote the use of Atlantic Provinces gateways to world trade routes. The services in this directory include mainly container vessels, ro/ro vessels, or a combination of both, as well as general cargo vessels which provide a regular, year round service to the Ports of Halifax and Saint John, with connecting services to Newfoundland. Types of container equipment, frequency of sail-

ings, transit times and other service characteristics are identified as footnotes to each service listed in the directory.

Distribution of snow crab, *chionoecetes opilio*, in sea area off Hinomisaki, Shimane Prefecture where protection shelters have been installed

By J. Adachi. Ottawa : National Research Council, Canada Institute for Scientific and Technical Information, 1994. 16 p. : *ill. (Canadian translation of fisheries and aquatic sciences / Canada. Dept. of Fisheries and Oceans ; no. 5632 ISSN 0704-3716) Originally published in Japanese. ISSN 0704-3716*

MICROLOG 94-06609 (1 fiche)

Catches of snow crab in the Sea of Japan have decreased considerably, mainly because of overfishing. This report gives the results of a study on the effectiveness of artificial fish shelters, used to shelter the small-sized crabs until they reach the fully mature stage. The shelters were installed in an area two miles sq and 25 miles off Hinomisaki in August 1990. As part of the investigation, snow crab distribution surveys in and around the waters of shelter placement were conducted beginning in July 1989. This paper reports the distribution of the snow crabs based on fishing experiments and the results of submerged visual sightings.

The Effects of late-season angling on gamete viability and early fry survival in Atlantic salmon

By K. Davidson ... et al. Moncton, NB : Dept. of Fisheries and Oceans, Gulf Fisheries Centre, 1994. 12 p. : *Bibl.* (Canadian technical report of fisheries and aquatic sciences / Canada. Dept. of Fisheries and Oceans ; no. 1982
ISSN 0706-6457) CCG-P no. Fs 97-6/1982E
MICROLOG 94-06839 (1 fiche)

A program of catch-and-release is being actively promoted in recreational fisheries throughout North America as a means of protecting and conserving fish populations. Such a program has been in operation for Atlantic salmon in Atlantic Canada since 1984. The possibility that caught-and-released salmon, especially those caught late in the season near spawning time, would have reduced gamete viability has been a subject of concern for salmon conservation groups when considering the implications of fall season extensions. This study addresses that concern by comparing the gametic variability from salmon exposed to angling stress late in the season to that of non-angled salmon collected during the same time period.

Effects of power plant operations on NOx emissions

By D.W. Smith. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Thermal and Nuclear Power Section, Environmental Requirements Subsection, 1994. 17 p. : ill.
Presented at Electricity '94 : a new energy order.
MICROLOG 94-06535 (1 fiche)

Satisfactory control of nitrogen oxide emissions is a current concern of Canadian utilities. There are numerous options available ranging from low nitrogen oxide burners to SCR, but these all incur significant costs, especially for existing units. This paper discusses operating changes studied at SaskPower's Poplar River Station Unit 1, a coal-fired unit, and the resulting nitrogen oxide reductions that occurred.

Effects of the Nestucca oil spill on seabirds along the coast of Vancouver Island in 1989

By A.E. Burger. Delta, BC : Canadian Wildlife Service, Pacific and Yukon Region, 1993. vi, 51 p. : ill., *Bibl.* (Technical report series / Canadian Wildlife Service ; no. 179 ISSN 0831-6481)
ISBN 0-662-20827-7 CCG-P no. CW69-5/179E
MICROLOG 94-06847 (1 fiche)

On 23 December 1988, the oil barge Nestucca was damaged off Gray's Harbour, Washington and be-

gan leaking, spilling about 875,000 litres of Bunker C oil that drifted northwards, leading to widespread oiling of beaches along the coasts of Washington and Vancouver Island and the heavy mortality of seabirds. This report documents the impact of the Nestucca spill on seabirds based on the data collected from British Columbia. The report documented the numbers, types, degree of oiling, and state of decomposition of the birds recovered on Vancouver Island; compared the species composition of the oiled birds with that of offshore and in-shore populations wintering off southwest Vancouver Island; estimated the total number of oiled birds to land on Vancouver Island, taking into account the large numbers of carcasses not tallied; estimated the total at-sea mortality represented by the birds recovered on Vancouver Island, taking into account the losses of carcasses at sea; compared the Nestucca victims with normal seabird mortality off Vancouver Island; and assessed the impact of the spill on predatory and scavenging birds on Vancouver Island.

Electrical savings from fan speed reduction in lumber dry kilns

By A.T. Chow, P. Garrahan and G. Fleury. Montreal : Canadian Electrical Assn, 1994. 9 p. : ill., *Bibl.* *Presented at Electricity '94 : a new energy order.*
MICROLOG 94-06590 (1 fiche)

Over 10,000 horsepower of fan motors are installed in 400 lumber dry kilns in Ontario. Each kiln operates for over 7,000 hours per year at a cost of about \$3m. When air flow is maintained efficiently by using adjustable speed drives to reduce fan speed, the electrical consumption of the fan motors can be reduced by as much as 50%. This paper describes a demonstration project that found a method, using the temperature drop across the load (TDAL) tool, to determine the fan speed reduction schedule without affecting the lumber drying process; and measured the savings from using adjustable speed drives to reduce fan speed.

Electronic wall mounted line-voltage thermostats for electric space heating systems

By L. Handfield ... et al. Montreal : Canadian Electrical Assn, 1994. 20 p. : ill., *Bibl.* *Presented at Electricity '94 : a new energy order.*
MICROLOG 94-06600 (1 fiche)

Manufacturers of electronic wall mounted line-voltage thermostats, used for baseboard residential space heating, have announced significant amounts of energy savings over the currently used bimetallic thermostats. Prior work and current literature also indicate that the use of electronic thermostats with space heating systems can be beneficial. There is a concern about the effect of the massive use of electronic thermostats on electrical power quality. This study was conducted to confirm the energy savings claimed and to address the electrical power quality issue.

Error compensation in digital relays for transmission lines

By B. Jeyasurya ... et al. Montreal : Canadian Electrical Assn, Power System Planning and Operation Section, Power System Protection Sub-section, 1994. 17 p. : *ill.*, *Bibl.* *Presented at Electricity '94 : a new energy order.* MICROLOG 94-06550 (1 fiche)

With the communication and computing capabilities of present generation microprocessors, it is possible to design digital relays that can adapt themselves to the changing requirements of the power system. This paper presents a method for error compensation in distance relays, showing that the relay performs accurately without the need to change its operating characteristics. The paper then discusses the influence of fault resistance and remote in-feed on distance relay accuracy and shows how the error can be compensated. Simulation results and issues related to the hardware implementation of the proposed method are also presented.

Establishing the training sawmill at the Maritime Forest Ranger School as an international sawmill training institution : final report

Fredericton : OPIM Inc., 1993. 209 p. : ill. On cover: funded under the Canada/New Brunswick Cooperation Agreement on Planning. MICROLOG 94-06641 (3 fiche)

The Hugh John Fleming Forestry Complex, located in Fredericton, New Brunswick, offers training to the forestry related industry. As part of its training, the Maritime Forest Ranger School constructed a functional high technology sawmill six years ago on the premises of the Forestry Complex. The mill has been catering to the local Atlantic area market, which is seasonal, and is available for training only during December to May. To fill the down time of the training mill, the management and the board of the Maritime Forest Ranger School are considering offering training to the international market. This study analyzes the training needs and the approach needed to export the training program to South East Asia and Central America. Other parts of the world have also indicated training needs. The analysis also identified key groups and organizations that should be solicited.

The Evolution of a ground-water-influenced (Westphalian B) peat-forming ecosystem in a piedmont setting : the no. 3 seam, Springhill coalfield, Cumberland Basin, Nova Scotia

By J.H. Calder. Halifax : Nova Scotia Dept. of Natural Resources, 1993. 28 p. : ill., Bibl. In *Geological Society of America Special Paper 286*, 1993.
MICROLOG 94-06623 (1 fiche)

This paper concerns the validity of methods employed in assessing ancient peat-forming systems, particularly from the standpoint of raised (ombrotrophic) vs planar (rheotrophic) mires. The fundamental thesis of the paper is that the tools for the analysis of ancient peat deposits (coal) must be selected or developed from those employed in the classification of modern peatlands. The paper addresses lithotype, maceral, and miospore analysis using a case study on the No. 3 seam of the Springhill coalfield, Cumberland Basin, Nova Scotia, of Westphalian B age.

The Evolution of Canada's metropolitan economies

Montreal : Institute for Research on Public Policy, 1994. vi, 111 p. : ill., Maps, Bibl. (Monograph series on cities / Institute for Research on Public Policy ; 1) ISBN 0-88645-155-8
MICROLOG 94-06486 (2 fiche)

Founded in 1972, the Institute for Research on Public Policy is an independent, national, nonprofit organization. Its mission is to improve public policy in Canada by promoting and contributing to a policy process that is more broadly based, informed and effective. This document looks at the evolution of Canada's metropolitan economies and focuses on the non-industrial revolution; the changing economic base of Canadian metropolitan areas; the metropolitan concentration of economic activity; and, the new intra-metropolitan dynamic.

Examen du commerce entre les services publics d'électricité

Ottawa : Office national de l'énergie, 1994. ii, 30 p. L'éd. anglaise (*Review of inter-utility trade...*) sur la même fiche. ISBN 0-662-98822-1
GCC-E no NE23-40/1994F
MICROLOG 94-06942 (1 fiche)

Après une brève introduction, le chapitre 2 de ce rapport présente un bref résumé des points saillants dégagés de l'examen mené par l'Office, et énonce notamment les quatre options mises de l'avant dans le cadre de l'examen, soit les mesures que les services publics d'électricité pourraient prendre, avec ou sans l'appui et la participation des gouvernements fédéral et provinciaux, pour accroître les échanges commerciaux entre eux. Le chapitre 3 contient un résumé des réponses et des commentaires des parties intéressées au sujet des deux documents de travail de l'Office. Le chapitre 4 décrit les événements importants qui ont marqué le secteur de la production de l'électricité en Amérique du Nord pendant la période d'examen de l'Office. Finalement, le chapitre 5 résume les avantages et les inconvénients que les quatre options énoncées au chapitre 2 pourraient présenter pour les services publics d'électricité du Canada.

Experimental results from an HF ground wave radar operating in an ocean environment

By R.H. Khan ... et al. St. John's : Memorial University of Newfoundland, Centre for Cold Ocean Resources Engineering, 1993. 5 p. : ill., Bibl. (C-CORE publication / Memorial University of Newfoundland, Centre for Cold Ocean Resources Engineering ; 93-22) In *Proceedings of the Institute of Electrical and Electronics Engineers, Inc.*,

NECEC '93.
MICROLOG 94-06465 (1 fiche) (Available on fiche only)

Over the past two decades, significant advances have been made in the use of high frequency (HF) ground wave radar (GWR) for remote sensing in an ocean environment. The HF-GWR system is capable of monitoring a large coastal area of 160,000 sq km, with a range of 400 km and a 120 degree steering capability. This report presents sample experimental results with the appropriate ground-truthing for the detection of discrete targets such as vessels, low-flying aircraft, and ice hazards as well as for the measurement of ocean surface parameters.

Far field radiation pattern due to a perfectly conducting half plane embedded in a finitely conducting earth

By M. Sinha, J. Walsh and S.A. Saoudy. St. John's : Memorial University of Newfoundland, Centre for Cold Ocean Resources Engineering, 1993. 6 p. : *ill., Bibl.* (C-CORE publication / Memorial University of Newfoundland, Centre for Cold Ocean Resources Engineering ; 93-23) *In Proceedings of the Institute of Electrical and Electronics Engineers, Inc., NECEC '93*.
MICROLOG 94-06474 (1 fiche) (Available on fiche only)

The arrangement of a ground screen situated on real earth can generally be modelled as a perfectly conducting wedge of angle imbedded in an imperfect ground medium. By equating the two, the conducting wedge is transformed into a half plane interacting with a real earth terrain. This paper uses the geometrical theory of diffraction, along with geometrical optics, to determine the far field radiation pattern due to a line source located parallel to a perfectly conducting wedge of angle with one of its surfaces aligned to a ground of finite conductivity.

A Field guide to site identification and interpretation for the Prince Rupert Forest Region

By A. Banner ... et al. Victoria : Ministry of Forests, Forestry Division, Research Branch, 1993. xiv, 265 p. : *ill.*, *Maps* (Land management handbook / British Columbia. Ministry of Forests ; no. 26 ISSN 0229-1622) ISBN 0-7718-9397-3
MICROLOG 94-06377 (3 fiche)

This guide presents site identification and interpretation information for forest ecosystems of the Prince Rupert Forest Region. Site identification is based on the biogeoclimatic ecosystem classification used by the B.C. Ministry of Forests. The guide gives an outline of the classification system, outlines the process of identifying biogeoclimatic units and includes the procedures for describing and analyzing environmental and vegetation features to identify site units. It also outlines how to ecologically map sites for management purposes. It describes characteristics of the biogeoclimatic zones A and provides a synopsis of all site units recognized for each unit in the region. Information is presented on important habitats, wildlife species of management concern, and silviculture/wildlife considerations. Silvicultural interpretations and information are given on site productivity, site-limiting factors, vegetation potential, tree species selection, reforestation considerations, grass and legume seeding, and forest health.

Five-year growth response of thinned jack pine near Atikokan, Ontario

By B.C. Goble and C. Bowling. Thunder Bay, ON : Ministry of Natural Resources, Northwest Region Science and Technology, 1993. 13 p. : *ill.*, *Bibl.* (Technical note / Ontario. Northwest Region Science and Technology ; TN-23 ISSN 1192-7070) ISSN 0846-6106
MICROLOG 94-06324 (1 fiche)

This technical note summarizes five-year growth responses in a young jack pine stand with and without precommercial thinning, northeast of Atikokan, Ontario in the vicinity of Durie Lake. The area was harvested in 1975, hand seeded with jack pine in April 1977, and precommercially in summer and winter 1985. The trial consisted of three control plots and three thinned plots. Initial post-treatment data were collected in spring 1987. Within each plot, all trees were tagged, stem-mapped, and measured for diameter at breast height (dbh). Thirty trees in each plot were selected proportionate to the range of dbh's within each plot and were also measured for total height, crown width, and height to live crown. Main stem leader damage was also recorded, but not subdivided according to cause. The fifth-year dataset (October 1991) consists of repeats of the initial measurements with the inclusion of descriptors indicating dead trees, presence of stem and branch galls arising from western gall rust, ground level main stem gnawing damage from rodents, main stem leader damage from white pine weevil, damage from shoot tip borer, damage from crown browsing, and presence of other unidentified damage.

Geographic distribution of salmon spawning streams of British Columbia with an index of spawner abundance

By I.V. Williams, T.J. Brown and G. Langford. Nanaimo, BC : Dept. of Fisheries and Oceans, Biological Sciences Branch, Pacific Biological Station, 1994. vii, 198 p. : ill., Maps, Bibl. (Canadian manuscript report of fisheries and aquatic sciences / Canada. Dept. of Fisheries and Oceans ; no. 1967 ISSN 0706-6473) *Diskette not included with microfiche.* CCG-P no. Fs 97-6/1967E MICROLOG 94-06497 (3 fiche)

Quick reference for the geographic distribution of salmon streams in British Columbia, Pacific Region, and the relative magnitude of their spawning populations from 1983-92. Species of salmon spawners related to the streams include chinook, chum, coho, pink, and sockeye salmon. Maps of all streams were digitized at 1:250,000 using computerized spatial analysis software. Streams were identified by their gazetted name, with individual streams coded for reference and assigned a colour code to indicate the magnitude of the abundance index for each species. The province was divided into six areas and a set of maps produced for each species.

Geotechnical and ice problems in ocean resources development

Young Scholars Conference on Ocean Sciences (1993 : Qingdao City, China). St. John's : Memorial University of Newfoundland, Centre for Cold Ocean Resources Engineering, 1993. 10 p. : ill., Bibl. (C-CORE publication / Memorial University of Newfoundland. Centre for Cold Ocean Resources Engineering ; 93-31) *Presented at Young Scholars Conference on Ocean Sciences.*

MICROLOG 94-06467 (1 fiche) (Available on fiche only)

This paper discusses marine geotechnical and ice problems that are encountered in the development of ocean resources, especially in the exploration and production of offshore oil and gas in cold oceans. Problems include difficulties in site investigation and sampling; difficult seabed soils and impact on foundation designs; problems encountered in the construction of artificial islands in Arctic oceans; pipeline/soil interaction problems; and seabed instability problems. Cold ocean engineering problems include icebergs and their impact on offshore platforms and ice scour of the seabed and its impact on pipelines. A state-of-the-art review, incorporating C-CORE's experience in dealing with some of these engineering problems, is also presented.

Handling and planting methods influence field performance of red pine ten years after planting

By J.M. Paterson. Sault Ste. Marie, ON : Ontario Forest Research Institute, 1993. 5 p. : Bibl. *In The Forestry Chronicle* : vol. 69, no. 5, 1993.
MICROLOG 94-06626 (1 fiche)

In the early 1970s, poor survival and growth in springlifted 3+0 Red pine bare root stock was common in young plantations throughout southern Ontario. The cause was not obvious, since the nursery stock appeared healthy when packaged for shipment, and field plantings appeared to be well executed. A number of studies appeared to show that rough handling at the nursery and in the field, coupled with improper storage and planting, can have detrimental effects on seedling performance. Test plantings were established to compare trees operationally handled and planted with those handled and planted by research staff to test whether or not the operational handling and planting contributed to the poor performance observed in southern Ontario. This report presents 10-year results.

Harvesting methods in Canada's forests : a discussion paper from the National Round Table on the Environment and the Economy

Edited by S. Thompson. Ottawa : National Round Table on the Environment and the Economy, 1994. 11 p. (Working paper / National Round Table on the Environment and the Economy (Canada) ; no. 23)
MICROLOG 94-06680 (1 fiche)

The Forest Round Table undertook a broad discussion on the selection of forest harvesting systems that could not arrive at one document that would apply to all site-specific situations across the country but did produce a summary paper that contains an amalgam of views addressing social considerations, caring for the environment, and economic and management considerations. Social considerations involve public participation, goal setting and shared decision-making, the place of aboriginal peoples, equity and fairness, communities, the broader planning framework, and accountability. Caring for the environment includes the influence of timber harvesting on soils, hydrologic systems, site microclimate, wildlife habitat at the stand level and the landscape level, streams, cumulative effects, and effects on rare, endangered and vulnerable species. Economic and management considerations include harvest volumes and selection harvesting, worker training, and efficient use of management inputs.

Hierarchical power system reliability evaluation using the Canadian Electrical Association database

By R. Billinton, R. Ghajar and J. Satish. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operation Section, 1994. 17 p. : ill., Bibl. Presented at *Electricity '94 : a new energy order*.
MICROLOG 94-06563 (1 fiche)

Many utilities have established comprehensive procedures for assessing the performance of their systems. In Canada, these procedures have been formulated and data is collected through the Canadian Electrical Association (CEA). In 1975, CEA adopted a proposal to create a facility for centralized collection, processing, and reporting of reliability and outage data for electrical generation, transmission, and distribution equipment. The outage data made available through this collection and analysis process are sufficient for evaluating the adequacy of generation, transmission, and distribution systems. This paper illustrates the basic adequacy indices at all three hierarchical levels and the data required to calculate them. The predicted adequacy indices are obtained for a small reliability test system designated as the RBTS, developed at the University of Saskatchewan for educational and research purposes. This paper demonstrates that the CEA database for outage data can provide the data required to conduct an adequacy assessment of a power system at all three hierarchical levels.

IBM-PC salmon escapement data-entry system

By G. Serbic. Nanaimo, BC : Dept. of Fisheries and Oceans, Biological Sciences Branch, Pacific Biological Station, 1994. vi, 21 p. : Bibl. (Canadian manuscript report of fisheries and aquatic sciences / Canada. Dept. of Fisheries and Oceans ; no. 2240 ISSN 0706-6473) CCG-P no. Fs 97-4/2240E

MICROLOG 94-06498 (1 fiche)

User's manual for the IBM-PC salmon escapement data entry system. The manual includes procedures for adding, modifying, and deleting escapement data and instructions for creating and printing the annual reports of salmon streams and spawning populations. Each record includes information on stream inspection dates; start, peak, and end of spawning dates; enumeration methods; escapement estimates; reliabilities of escapement estimates; target escapements; and comments on physical and biological conditions. Two new data fields for jack count and brood stock have been added.

Immigrant housing choices, 1986

Clayton Research Associates. Ottawa : Canada Mortgage and Housing Corporation, Research Division, 1994. iv, 27 p. French ed. (*Les Choix de logement...*) : 94-06728/1.

MICROLOG 94-06704 (1 fiche)

This report highlights differences in housing choices between immigrants and non-immigrants based on an analysis of unpublished 1986 Census of Canada data. The analysis focuses on age-specific average household sizes and household headship rates, as well as tenure and dwelling type choices, for Canada as a whole, and to a lesser degree, the three major metropolitan areas of Toronto, Montreal and Vancouver. Variations in housing choices among immigrants due to such factors as place of birth, period of immigration and income are also examined.

The Impact of climate change, tectonism and hydrology on the formation of carboniferous tropical intermontane mires : the Springhill coalfield, Cumberland Basin, Nova Scotia

By J.H. Calder. Halifax : Nova Scotia Dept. of Natural Resources, 1994. 30 p. : ill., Maps, Bibl. In *Palaeogeography, Palaeoclimatology, Palaeoecology* : 106, 1994.

MICROLOG 94-06619 (1 fiche)

This paper addresses the questions of the effect of climate change in the Cumberland Basin of Nova Scotia; the way ancient peat-forming ecosystems develop; and the processes, either allogenic or autogenic, that led to their demise and rejuvenation. The results of the examination may help to broaden the understanding of peat formation in coeval strongly tectonically influenced continental settings and eustatically influenced basins of Euramerica. The paper describes the geological setting; the stratigraphy and sedimentology of coal measures in the Cumberland Group, including the Joggins Formation, the Polly Brook formation, and the Springhill Mines Formation; tectonic controls; and climatic change.

Impact of the 1974-81 spruce budworm infestation on the forests of Cape Breton Island

Truro, NS : Dept. of Natural Resources, Forestry Branch, Forest Research Section, 1994. 8 p. : *ill.*, *Bibl.* (Forest research report / Nova Scotia. Forest Research Section ; no. 47) *At head of title: Canada-Nova Scotia Cooperation Agreement for Forestry Development.*
MICROLOG 94-06330 (1 fiche)

The latest spruce budworm infestation on Cape Breton Island, Nova Scotia began in 1974, peaked in 1976-77, and declined to endemic levels by fall 1982. Forest inventories fell by about two-thirds over this period, resulting in a number of questions about how much could be attributed to normal mortality, how much growth was lost, if fir was more susceptible than spruce, if mixedwood stands were less vulnerable than softwood stands, and if softwood mortality resulted in an increase in hardwood growth. To answer these questions, an analysis of data from the Nova Scotia Forest Inventory Permanent Sample Plots was carried out. This research report summarizes the results.

Influence of photoperiod and temperature on frost hardness and free amino acid concentrations in black spruce seedlings

By K.D. Odium ... et al. Sault Ste. Marie, ON : Ontario Forest Research Institute, 1993. 8 p. : *ill.* *In Tree Physiology* : 13.
MICROLOG 94-06625 (1 fiche)

Because photoperiod and temperature both influence amino acid metabolism in plants, seasonal reductions in day length and temperature may be responsible for the changes in amino acid concentrations that occur in conifers with the onset of winter. Since such fluctuations in conifers occur in association with the development of frost hardness, it has been suggested that the accumulation of specific free amino acids may be related to the development of frost hardness. This study was designed to determine the effects of photoperiod and temperature on proline, arginine, and tryptophan concen-

trations in the shoots of black spruce seedlings in relation to the development of hardness to -20°C.

Insects of eastern spruces, fir and hemlock -- Rev.

By A.H. Rose and O.H. Lindquist. Ottawa : Natural Resources Canada, Canadian Forest Service, Science & Sustainable Development Directorate, 1994. 159 p. : ill. (Publication / Canadian Forestry Service) *French ed. (Insectes des...)* : 94-06787/2. ISBN 0-660-15112-X CCG-P no. FO64-23/1994E
MICROLOG 94-06788 (2 fiche)

This handbook deals with insects feeding on spruces, balsam, fir, and hemlock in Canada from the Rockies to the Atlantic. Seventy-five species or species groups causing damage or which are commonly found on these trees are covered. Colour illustrations aid in the identification of insects and trees and flow chart keys help identify the insect and the injury found. Included are biological sketches of causal insects, illustrations of life stages, and the injury caused. Control is discussed along with the required type and timing of applications of pesticides. Injury by birds, mammals, mites, and other agents is also included.

Interference suppression in swept frequency chirp echo sounding systems

By P. LeFeuvre and R.H. Khan. St. John's : Memorial University of Newfoundland, Centre for Cold Ocean Resources Engineering, 1993. 5 p. : *Bibl.* (C-CORE publication / Memorial University of Newfoundland, Centre for Cold Ocean Resources Engineering : 93-21) *In Proceedings of the Institute of Electrical and Electronics Engineers, Inc., NECEC '93*.
MICROLOG 94-06475 (1 fiche) (Available on fiche only)

This paper describes a project to investigate the fundamental interference mechanisms associated with the practical implementation of many swept frequency chirp echo sounding systems. Exact matched filtering for chirp signals is impractical for many systems and the receiver front-ends are usually designed with crude approximations to

matched filtering, causing a high susceptibility to interference signals. To test a potential method to suppress interference while retaining the simple front-end filtering schemes, a simulation using a chirp underwater acoustic system was undertaken. This technique is described briefly and initial experimental results are presented.

Interpreting the mortality of seabirds following the Nestucca oil spill of 1988-89

By A.E. Burger. Delta, BC : Canadian Wildlife Service, Pacific and Yukon Region, 1993. ill, 30 p. : ill., *Maps, Bibl.* (Technical report series / Canadian Wildlife Service ; no. 178 ISSN 0831-6481) *Cover title: Interpreting the mortality of seabirds following the Nestucca oil spill of 1988-89 : factors affecting seabirds off southwestern British Columbia and northern Washington*.
ISBN 0-662-20829-5 CCG-P no. CW69-5/178E
MICROLOG 94-06846 (1 fiche)

On 23 December 1988, the barge Nestucca was damaged off Gray's Harbour, Washington and 875,000 litres of Bunker C oil was spilled. The spill drifted northward, passing through concentrations of seabirds off Washington and Vancouver Island,

resulting in a direct mortality of an estimated 56,000 birds. Many more were debilitated and perhaps died from side effects. This report attempts to explain the very high mortality rate of the seabirds, much higher relative to other spills of similar size. It reviews pertinent information on seabird distribution and behaviour and physical and biological oceanography from published and unpublished sources. The review identifies oceanic processes that might affect the distribution and abundance of seabirds in the region and focuses on ocean processes affecting overwintering seabirds, especially the two most affected species, the Common Murre and Cassin's Auklet.

MICROLOG 94-06578 (1 fiche)

This paper describes a unique application of PC-based technology to meet the emerging demands of operating the regional supply system. It includes a discussion of the driving forces and influences behind the real time data requirements for regional control centres and the evolution of a monitoring system to meet this demand. It briefly examines the technology used and how it has been adapted to keep up with the changing role of the regional operating centres in the daily operation of the electrical system. It also describes how the system has been interconnected with others to provide additional benefits.

Kootenay Canal runner replacement, from proposal to manufacture

By B. Mahé, D. Thomas and R. Eremeeff. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operating Section, Power System Reliability Subsection, 1994. 23 p. : ill., Bibl. Presented at *Electricity '94 : a new energy order*.
MICROLOG 94-06522 (1 fiche)

The Kootenay Canal powerhouse is equipped with a straight section of external penstock, making it very easy to measure. Efficiencies of the turbines were calculated to have a peak efficiency of 4-5% lower than the best units purchased at the same time, giving a very good reason for replacing the runner. This paper describes the competitive model testing, the selection of the manufacturers, the hydraulic design philosophy, mechanical verifications, model homology requirements, model testing, runner manufacturing, and associated works.

Laboratory testing results for the DREO experimental MAWS transceiver

By L. Campbell, R. Robinson and G. Rempel. Ottawa : Defence Research Establishment Ottawa, 1993. ix, 51 p. : ill., Bibl. (Report / Defence Research Establishment Ottawa ; no. 1205)
MICROLOG 94-06791 (1 fiche)

An experimental transceiver for a radar-based missile approach warning system (MAWS) was developed to aid in studying the most effective techniques for design and implementation of such systems. The system was completed in November 1992, with the transceiver designed for airborne use and ready for flight trials in 1994. The MAWS

transceiver is an L-band pulse Doppler radar with frequency agility, multiple pulse repetition frequencies, and pulse coding capabilities. This report outlines laboratory tests conducted on the transceiver and shows performance specifications achieved by the system. The tests were designed to verify critical parameters of the transceiver, while providing a broad base of information that will aid in interpreting data from future flight tests.

The Lake Huron data base : characterization and use for evaluating multifrequency monopulse tracking using a multipath propagation model

By E. Bossé and R.M. Turner. Ottawa : Defence Research Establishment Ottawa, 1993. vii, 42 p. : ill., *Bibl.* (Report / Defence Research Establishment Ottawa ; no. 1178)
MICROLOG 94-06792 (1 fiche)

This report describes in detail a unique multifrequency 32-element array data base collected over Lake Huron and investigates the experimental performance of multifrequency phase monopulse using a model for specular multipath (called refined monopulse or RMONO because of its use of a refined propagation model). Tracking performance is compared with that obtained with phase monopulse averaged over the frequency agile bandwidth and with that obtained with the refined maximum likelihood (RML) logarithm.

Little fair in the Fair Tax Commission report

By J.M. Mintz. Toronto : C.D. Howe Institute, 1994. 19 p. : *Bibl.* (Commentary / C.D. Howe Institute ; no. 62 ISSN 0824-8001)
MICROLOG 94-06916 (1 fiche)

The 1993 report of Ontario's Fair Tax Commission, Fair Taxation in a Changing World, proposes a number of measures intended to improve the fairness of the provincial tax system. The report is, however, undermined by two basic flaws. First, it does not make a clear case that the current tax system is unfair. Second, many of the report's recommended changes would fail to achieve fairness, especially horizontal equity, in a number of respects. This document presents a commentary on the fairness of the Fair Tax Commission Report.

Mackenzie River East Channel scour hole investigations

By S. Fassnacht. Yellowknife : Environment Canada, Inland Waters Directorate, NWT Programs Branch, 1993. 27 p. : *ill., Maps, Bibl.* MICROLOG 94-06653 (1 fiche)

The occurrence of deep scour holes in the bed of the Mackenzie River Delta distributary channels is an important design consideration for future oil and gas developments. A scour hole on the East Channel of the river was documented in 1985 and resurveyed in 1992 to examine changes in channel bathymetry and evaluate mechanisms that create and evolve scour holes. This report evaluates short-term changes at the scour hole site and presents data on site bathymetry, channel hydraulics, and bed material to facilitate subsequent analysis. The report is accompanied by a project data file containing the raw data collected during the 1992 resurvey and the processed data.

Magnetic signature of the Goldenville-Halifax transition zone, North Beavertank

By M.S. King. Halifax : Dept. of Natural Resources, 1994. 8 p. : *ill., Maps, Bibl.* (Open file report / Nova Scotia. Dept. of Natural Resources ; OFR 94-015) *On cover: Cooperation Agreement on Mineral Development*. MICROLOG 94-06729 (1 fiche)

The ability to correlate enhanced aeromagnetic data to stratigraphic units within the Meguma Group has been successful in the Halifax Formation but preliminary investigation of enhanced aeromagnetic maps in the North Beavertank area revealed systematic discrepancies between geological boundaries and significant aeromagnetic anomalies. These discrepancies at the Goldenville-Halifax boundary imply a distinctive magnetic signature may exist for a Goldenville-Halifax transition zone. This report compares aeromagnetic signa-

ture, susceptibility character, magnetic mineralogy, and lithology to define a magnetostratigraphy to establish aeromagnetic signatures for Goldenville-Halifax transition units.

Mapping and characterization of cutover peatlands for reclamation planning

By L.W. Turchenek, W.S. Tedder and R. Krzanoski. Edmonton : Alberta Land Conservation and Reclamation Council, Reclamation Research Technical Advisory Committee, 1993. xii, 100 p. : ill., Maps, Bibl. (Report / Alberta. Reclamation Research Technical Advisory Committee ; RRTAC 93-6) ISBN 0-7732-6038-2
MICROLOG 94-06828 (2 fiche)

Several hundred hectares of peatlands in Alberta were harvested for horticultural peat moss since the 1960s and left unreclaimed. This study was begun in summer 1991 to develop a methodology for a cost-effective soil survey and sampling of cutover peatlands, and to obtain baseline chemical information and data interpretation for peat materials at one site near Evansburg. The report provides information on the methodology and protocol for a soil survey and sampling of cutover peatlands derived mainly from established soil survey practices and supplemented by information from the actual survey. The survey used aerial photographic interpretation of the area, application of existing soil and vegetation classification systems, field soil and vegetation survey, elevation survey, soil sampling development of a digital base map in a geographic information system, digitizing of spatial information, application of computer contouring and geostatistics, and laboratory analysis.

MICROLOG 94-06491 (1 fiche)

Tritium retention in exposed skin can affect tritium turnover in the body. To gain insight into the metabolic behaviour of topically applied tritiated formaldehyde, this study examines tritium excretion in urine and tritium retention in parts of the body. A comparison is made between the biokinetics of tritium in urine from tritiated-formaldehyde- and tritiated-oil-contaminated animals, to determine whether the involvement of tritiated organics such as tritiated formaldehyde, as a source of contamination, influences the uptake and retention characteristics of tritium.

Methyl bromide alternatives, substitutes and recovery systems : final report

Deloitte & Touche Management Consultants, Ottawa : Agriculture and Agri-Food Canada, 1993. 63 p.
MICROLOG 94-06739 (1 fiche)

Examination of the applicability of alternatives, substitutes, and recovery systems for methyl bromide. The report provides background information on methyl bromide alternatives and explains the Montreal Protocol and Canada's commitments concerning the chemical. It then reviews the use of methyl bromide in Canada in space, soil, and commodity fumigation. Alternatives, substitutes, and recovery systems are identified in three major end-use areas based on the pests controlled, cost, complexity, compatibility, and effectiveness. The report also includes a listing of areas with the greatest potential to reduce or replace methyl bromide and areas that require more research on alternatives.

Microbial issues pertaining to the Canadian concept for the disposal of nuclear fuel waste

By S. Stroes-Gascoyne and J.M. West, Pinawa, MB : Atomic Energy of Canada Ltd., 1994. 39 p. : *Bibl.* (AECL research / Atomic Energy of Canada Ltd. ; AECL-10808 ISSN 0067-0367)
ISBN 0-660-15508-7
MICROLOG 94-06489 (1 fiche)

AECL Research is developing a concept for the permanent disposal of nuclear fuel waste in plutonic rock of the Canadian Shield. The Federal Environmental Assessment Review Panel has issued a set of guidelines to be used in preparing an environmental impact statement (EIS) that require the addressing of a number of microbiological factors and their potential to affect the integrity of the multiple barrier system on which the disposal concept is based. This report formulates views and positions on microbiological factors that could influence the performance of a disposal vault in plutonic rock. These include the presence and survival of microbes, biofilms, corrosion, biodegradation of emplaced materials, gas production, geochemical changes, radionuclide migration, colloid formation, mutation, pathogens, and methylation. Studies being performed to underscore and strengthen current knowledge are briefly discussed.

A Microprocessor-based accelerating power level detector

By M. Nagpal, W. Zarecki and J.C. Albrecht, Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Protection Subsection, 1994. 14 p. : ill., *Bibl.* Presented at *Electricity '94 : a new energy order.*
MICROLOG 94-06543 (1 fiche)

An accelerating power level detector was built using state-of-the-art microprocessor technology at Powertech Labs Inc. The detector will monitor the real power flowing in two 300 kV transmission lines out of Kemano Hydroelectric Generating Station and will detect any sudden loss of load due to a fault on either line under certain pre-selected power flow conditions. This paper discusses the criteria of operation for the detector and its implementation details, including digital processing, hardware, and software.

Presented at *Electricity '94 : a new energy order*. French ed. (*Unité mobile de transformation*) on the same fiche. MICROLOG 94-06594 (1 fiche)

This paper describes the Mobile Transformer Van (MTV) and its remote-control system. The purpose of this vehicle is to supply power to the customers served by a particular transformer vault for the duration of the project, thus providing for safe, efficient repair without undue disruption of customer service. The container used to transport MTV cables and accessories is also described. CA EN SC

A Model for distribution transformers replacement economics

By F. Fontaine. Montreal : Canadian Electrical Assn, Engineering & Operating Division, Distribution Section, Distribution Transformers Committee, 1994. 7 p. : ill. Presented at *Electricity '94 : a new energy order*. MICROLOG 94-06595 (1 fiche)

After the purchase of new transformers, their total owning cost, which capitalizes various items including the projected cost of losses over the expected life of the unit, are closely tracked. This value is usually calculated as a present value at the time of purchase, using well defined parameters that take into account specific actual and forecasted financial data. ABB has developed a computer program, based on Lotus 1-2-3, to apply a similar economic analysis on older transformers that are either in stock or installed. This paper describes the program and the model used for replacement of a transformer. CA EN SC

Models of dangerousness : a cross jurisdictional review of dangerousness legislation and practice

By M.P. Petrunik. Ottawa : Ministry of the Solicitor General, Corrections Branch, 1994. 140 p. : Bibl. (User report / Canada. Corrections Branch ; 1994-02) ISBN 0-662-22234-2 CCG-P no. JSR-1/1994-2E MICROLOG 94-06397 (2 fiche)

The purpose of this report is to review dangerousness legislation and practice historically and across jurisdictions and to discuss implications for current Canadian legislation and practice. Part I examines the concept of dangerousness and the societal response to persons considered dangerous. Part II examines the clinical model of dangerousness. Part III presents a critique of dangerousness legislation and practice from the vantage point of the justice model of social control. Part IV examines the emergence of a community protection model of dangerousness that reflects not only a dissatisfaction with clinical and justice models but also the concerns of community-based movements defending the interests of women and children and calling for a greater emphasis on victims rights and crime prevention. Part V examines Canadian approaches to dangerousness legislation and practice. Finally, part VI provides a summary, conclusions, and recommendations. CA DE JU SS

Montagnais 735 kV series compensation : pre-test and commissioning of the digital protection equipment

By H. Bilodeau ... et al. Montreal : Canadian Electrical Assn, HVDC, SVC & Facts Devices Committee, 1994. 14 p. : ill., Bibl. Presented at *Electricity '94 : a new energy order*. MICROLOG 94-06558 (1 fiche)

In November 1993, the three 476 MVar series capacitors installed at the Montagnais 735 kV substa-

tion began commercial operation. In addition to the usual factory and functional tests using signal generators to check the functionality and accuracy, the digital protection was tested on a TNA with a simplified network model. A synthetic test, including the digital protection equipment and the optical signal link, was also performed. The commissioning tests included the verification of the complete equipment, the functional test of the control, and protection and energization by stages. This paper describes the overall installation, outlining the energy monitor and protection main features. The TNA and synthetic tests are described and some test results are presented. Comments on the commissioning tests and general experience are included. CA EN SC

Morphology and seismic stratigraphy of the inner continental shelf off Nova Scotia, Canada : evidence for a -65 m lowstand between 11,650 and 11,250 C14 yr B.P.

By R.R. Stea ... et al. Halifax : Nova Scotia Dept. of Natural Resources, 1994. 20 p. : ill., Bibl. In *Marine Geology* : vol. 117, 1994. MICROLOG 94-06621 (1 fiche)

The data is integrated with paleoecological and age data from cores and grab samples obtained during the study, and the results of multibeam sounding are applied to the problems. AP NR PR SC

Multi-media geochemical survey of the Dominique, Sn, Zn, Cu, deposit, Yarmouth County, Nova Scotia

By P.A. Lombard and F.J. Boner. Halifax : Dept. of Natural Resources, Mines Branch ; Energy Branch, 1994. 175 p. : ill., Maps, Bibl. (Open file report / Nova Scotia. Dept. of Natural Resources ; OFR 94-003) On cover: *Canada-Nova Scotia Co-operation Agreement on Mineral Development*. MICROLOG 94-06967 (2 fiche)

The Dominique deposit occurs in Cambrian to Ordovician greywacke and quartzite of the Goldenville Formation. During the 1991 field season, a multi-media survey was conducted to examine the geochemical characteristics of the mineral deposit and to evaluate the effectiveness of various geochemical media and analytical techniques. Sample media consisted of humus, tamarack twigs and bark, red spruce twigs and bark, balsam fir twigs, and unweathered till. AP ND NR PR SC

Multiculturalism, representation and the jury selection process in Canadian criminal cases

By D. Pomerant. Ottawa : Dept. of Justice, Research and Development Directorate, Research Section, 1994. ix, 86 p. : Bibl. (Working document / Canada. Dept. of Justice. Research Section ; WD1994-7e) French ed. (*Multiculturalisme, représentativité...*) : 94-06703/2. MICROLOG 94-06702 (2 fiche)

The project culminating in this report set out to assess the adequacy of the current jury selection process in view of the diverse, multicultural nature of Canadian society. The report's purpose is to highlight problems and indicate whether there is a need to reform the jury selection process in order to better reflect or accommodate the needs and aspirations of visible and ethno-cultural minorities as these are reflected in Canada's multiculturalism policy. Where appropriate, suggestions are offered as to the kinds of reforms that may be appropriate in addressing identified problems. Five aspects of the jury selection and assembly process are specifically addressed and assessed: the criteria for determining whether juries adequately represent their communities and other societal interests; provincial procedures relating to the selection and assembly

of juries; the grounds for qualification or disqualification of prospective jurors; federal procedures relating to the jury selection process; and the requirement that jury verdicts must be unanimous. CA CU JU ND SS

Multiculturalisme, représentativité et sélection des jurés dans les procès criminels au Canada

Par D. Pomerant. Ottawa : Ministère de la justice, Sous-direction de la recherche et du développement, Section de la recherche, 1994. ix, 96 p. : Bibl. (Document de travail / Canada. Ministère de la justice. Section de la recherche ; WD1994-7f) L'éd. anglaise (*Multiculturalism, representation...*) : 94-06702. MICROLOG 94-06703 (2 fiche)

L'objectif de ce rapport est de cerner les problèmes et d'indiquer s'il est nécessaire de réformer le système pour que les besoins et les aspirations des minorités visibles et ethnoculturelles soient davantage représentés et respectés, conformément à la politique du Canada en matière de multiculturalisme. Nous traitons et évaluons particulièrement cinq aspects du processus de sélection et de constitution d'un jury : les critères permettant de déterminer si les jurés sont suffisamment représentatifs de leurs collectivités et d'autres intérêts de la société, les procédures provinciales relatives à la sélection et à la constitution d'un jury, les motifs d'habilitation ou d'invalidation des candidats-jurés, les procédures fédérales relatives à la sélection des jurés, et l'obligation de rendre un verdict unanime. Non-intrusive coal pipe flow monitors

By P.W. Davall and R.T. Mitura. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Thermal and Nuclear Power Section, Station Control and Instrumentation Subsection, 1994. 28 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order.* MICROLOG 94-06534 (1 fiche)

In early 1991, the Canadian Electrical Association began a project to develop a non-intrusive instrument for measuring coal mass flow in utility burner feed pipes. The work was conducted in two stages, proof of concept and prototype development. This paper presents the results of stage 1 in which three measurement techniques were tried. In the first, a gamma-particle beam was transmitted across the coal feeder pipe and the transmitted beam intensity measured using a scintillator receiver. The second approach measured the attenuation of a 10.5 GHz microwave beam transmitted across the pipe. The final approach measured the attenuation of visible and infra-red light beams shone across the pipe.

A North American collaboration to achieve compatibility between electrical and electronic systems

By T.S. Key. Montreal : Canadian Electrical Assn, 1994. 11 p. : *ill. Presented at Electricity '94 : a new energy order.* MICROLOG 94-06597 (1 fiche)

As North American businesses connect more and different electronic systems into offices and other commercial buildings, the need to be aware of potential electrical incompatibilities grows. These issues are being addressed by the Electric Power Research Institute and the Canadian Electrical Association. The project is a partnership between the electric power industry and individual manufacturers and includes the writing of performance criteria, the development of test procedures, and the testing of selected electronic equipment. This paper summarizes some recent results of testing magnetic and electronic lighting ballasts and transient voltage surge suppressors, and previews plans for testing adjustable-speed drives.

Notification policy to protect children from abuse

British Columbia. Ministry of Attorney General.
Victoria : The Ministry, 1994. 46 p.
MICROLOG 94-06736 (1 fiche)

One of the fundamental obligations of society is the protection of children. The justice system must play a key role in providing this protection. The purpose of this policy is to enhance the protection of children in all cases where there is a real risk of harm, by ensuring appropriate sharing and disclosure of relevant information relating to known abusers. This policy applies to the disclosure of information about persons who have been convicted of a criminal offence involving sexual or physical abuse of children. Persons charged with this type of criminal offence are also governed by this policy, recognizing the presumption of innocence and the obligation of justice agencies to protect an accused person's right to a fair trial.

Operational evaluation of college administrative services : a framework for institutional researchers and administrators

By B. Hansen. Victoria : Ministry of Advanced Education, Training and Technology, 1994. 102 p. : *Bibl. ISBN 0-7726-2133-0*.
MICROLOG 94-06741 (2 fiche)

The purpose of this paper is to develop a framework for the evaluation of administrative and support services in B.C. colleges which is consistent with the emerging framework for institutional accountability. It is intended to advance the state of evaluation practice by suggesting some commonalities of approach for the institutional research staff in colleges who typically conduct evaluation studies. Secondly, it is intended to familiarize administrators - whose commitment to evaluation is essential to the success of the process - with the enhanced accountability requirements of public sector organizations including colleges and the nature of professional evaluation as it is now practiced. Accordingly, the paper combines a framework for evaluation practitioners with sufficient contextual material to inform administrators of the nature and utility of evaluations.

Overbank sedimentation patterns on the Mackenzie Delta, N.W.T.

By C.M. Pearce. Yellowknife : Environment Canada, Inland Waters Directorate, NWT Programs Branch, 1993. 112 p. : *ill.*, *Maps*, *Bibl.* MICROLOG 94-06648 (2 fiche)

This report summarizes the results of previous sedimentation studies on the Mackenzie Delta and new measurements collected in 1992 in the middle and outer delta; explains the relationships between overbank deposition, delta landform, and vegetation; evaluates methodologies for collecting data on overbank deposition; estimates mean areal sedimentation rates for a middle delta study area; presents overbank sedimentation maps for all of the areas used in previous sedimentation studies; recommends new methods and new sampling sites on the delta to measure historical sedimentation rates and future overbank sedimentation patterns; and proposes a budget for additional sedimentation sampling in the middle and outer delta and analysis of the data.

Overhead distribution line models for harmonics studies

By M. Nagpal, W. Xu and H.W. Dommel. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operation Section, Analytical Techniques of Insulation Co-ordination Committee, 1994. 11 p. : *ill.*, *Bibl.* *Presented at Electricity '94 : a new energy order*. MICROLOG 94-06556 (1 fiche)

Carson's formulae and Maxwell's potential coefficients are used for calculating the per unit length series impedances and shunt capacitances of the overhead lines. The per unit length values are then used for building the models, nominal pi-circuit, and equivalent pi-circuit at the harmonic frequencies. This paper studies the accuracy of these models for presenting the overhead distribution lines in steady-state harmonic solutions at frequencies up to 5 kHz. The models are verified with a field test on a 25 kV distribution line and the sensitivity of the models to ground resistivity, skin effect, and multiple grounding is reported.

Patterns of obstetrical utilization in Manitoba, 1981-89

By C. Mustard and M.L. Barer. Winnipeg : Manitoba Health, 1993. 142 p. : *ill.*, *Bibl.* MICROLOG 94-06494 (2 fiche)

This document describes patterns of obstetrical care in Manitoba in 1981/82 and 1989/90, with an emphasis on significant changes in patterns of care over that period. The first section provides an overview of provincial and broad regional trends in fertility. Section B looks at changes over this period in some common descriptors of obstetrical practice and outcomes. In section C we turn our attention to inter-regional patterns of obstetrical care focusing on potential determinants of these patterns of external care-seeking. Section D focuses on obstetrical care provided by individual Winnipeg hospitals, and particularly the two Winnipeg tertiary hospitals. In section E, we analyze the relationship between the measures of risk status that can be gleaned from the hospital discharges database, and birth outcomes.

Penstock rupture detector at Bridge River

By J.W. Taylor. Montreal : Canadian Electrical Assn., Engineering and Operating Division, 1994. 9 p. : ill. Presented at *Electricity '94 : a new energy order*. MICROLOG 94-06516 (1 fiche)

At the Bridge River powerplant, four surface penstocks are located on a steep mountain slope. If the penstocks ruptured, there would be considerable damage to the powerhouse, switchyard, and the public. A penstock rupture detector was installed to replace the original detector installed during construction in the 1940s. This paper describes the replacement of the detector with a flow difference detector that provides sensitivity to small leaks as well as to a large rupture.

Pile load and extraction tests, 1954-92

Downsview, ON : Ministry of Transportation, Engineering Materials Office, 1993. 383 p. : ill. (Report / Ontario. Highway Engineering Division. Engineering Materials Office ; EM-48) MICROLOG 94-06614 (4 fiche)

An inventory of bridges in Ontario in 1990 indicated there were 2,643, not including those constructed in conjunction with municipalities. More than half of them are wholly or partially supported on piled foundations. To determine the most economical type of pile to provide the necessary support, it was necessary to carry out pile load tests. This report presents data on 136 tests at 41 sites in the province. Pile types tested included steel H piles, concrete filled steel tube piles, treated and untreated timber piles, precast concrete piles, Franki type displacement caissons, and cast-in-situ concrete piles. The report includes a description of the testing program.

Pinecone Lake, Burke Mountain PAS study area : socio-economic assessment

Crane Management Consultants Ltd. Vancouver, BC : Pinecone Lake Burke Mountain PAS Study Team, 1994. xv, 129 p. : Bibl. ISBN 0-7726-2085-5 MICROLOG 94-06832 (2 fiche)

The Pinecone Lake-Burke Mountain study area is a relatively confined geographical region bordering the west side of Pitt Lake and the Pitt River, from Burke Mountain in the south to Bucklin Creek and Garibaldi Park in the north. The City of Coquitlam's northern boundary overlaps the study area. In early 1993, a Pinecone Lake Burke Mountain protected area strategy (PAS) study committee was appointed to study the area in depth for designation as a PAS. This report profiles the economic activity, social issues, the aboriginal community, and environment in the study area; and assesses the economic, environmental, aboriginal community, and social impacts of three land use scenarios. The study uses a multiple accounts analysis to identify the implications of the alternatives for each account on the provincial and regional levels.

Potential use of track-pellet group counts for moose censusing

By R.A. Lautenschlager and P.A. Jordan. Sault Ste. Marie, ON : Ontario Forest Research Institute, 1993. 5 p. : *Bibl.* *In Alces* : vol. 29, 1993. MICROLOG 94-06631 (1 fiche)

Examination of the potential of the track-pellet group count for documenting moose habitat use and densities during winter. The method relies upon tracks made during a precisely known period and confines searching to the snow over which the animals have travelled. It uses small plots, randomly placed within identified segments of study areas, to which observers come from 28-47 hours after the last snowfall. All tracks were followed into the plots and pellet groups found in association with tracks were counted, then buried beneath the snow to eliminate possible recounting. The total number of pellet groups found and the time elapsed since the end of the snowfall were tallied for each plot separately, and means and SEs for the area, based on all plots within an area, were calculated.

Power transformer tank rupture

By M. Foata and G. Khousam. Montreal : Canadian Electrical Assn, Engineering and Operating Division, 1994. 27 p. : *ill.* *Bibl.* *Presented at Electricity '94 : a new energy order.* MICROLOG 94-06587 (1 fiche)

Explosions in oil-insulated equipment have always been a major preoccupation for electrical utilities. Historically, mitigation measures have concentrated on improving the insulation. Although these efforts have greatly increased reliability, there seems to be a consensus in the industry that the probability of a major fault cannot be totally eliminated, at least not in a foreseeable future. Since conventional pressure relief devices are not efficient, the internal overpressure caused by the arc must be contained by the tank. This paper presents Hydro-Quebec's point of view on the problem, including a survey of faults and a new specification for tank resistance. A manufacturer then presents a new approach to designing tanks that takes into account arc resistance.

Pre-contractual misstatements

Winnipeg : Manitoba Law Reform Commission, 1994. 84 p. (Report / Manitoba. Law Reform Commission ; no. 82) ISBN 0-7711-0917-2 MICROLOG 94-06368 (1 fiche)

This report examines and evaluates the law relating to the remedies available to a contracting party who has been induced to enter a contract on the basis of a false pre-contractual statement. Chapter 2 presents an overview of the legal principles which govern pre-contractual statements. This is followed in chapters 3, 4 and 5 by a discussion of the complementary role played by tort law and legislation. Chapter 6 contains an examination of the case of *Ennis v. Klassen*, the Manitoba decision which sparked our consideration of this area of the law. In chapter 7, we review both the legislative reform and law reform recommendations which have taken place in Canada in the past two decades. Chapter 8 reviews the reforms which have been implemented in three common law jurisdictions: England, New Zealand and the United States of America. Chapter 9 reviews the various options for reform and contains recommendations for reform of the law in Manitoba. This is followed by chapter 10, by a draft Misrepresentation Act and commentary. The Act is reproduced (without commentary) as Appendix A to this report.

Prevention and early detection of aluminium rotor bar and end ring failure in large utility motors

By A.D. Mukherji. Montreal : Canadian Electrical Assn, 1994, 23 p. : ill., Bibl. *Presented at Electricity '94 : a new energy order.*
MICROLOG 94-06526 (1 fiche)

Use of large, direct on-line starting motors is quite common in power plants but direct on-line starting produces severe mechanical stress and rapid heating of the rotor assembly, and will eventually lead to failure of rotor bars and end rings. Use of fabricated aluminum rotor cage construction has been adopted by many major manufacturers as an improvement on copper cage construction but these rotors also have a history of mechanical failures of the cages. This paper outlines the modifications made on the Coleson Cove 7,000 hp boiler feed pump motors to reduce the frequency of such failures, and the methods now used by the plant for early detection of such problems.

Probabilistic assessment of realistic acoustic detection effectiveness (PARADE) model : user's guide

By M.G. Hazen. Ottawa : Defence Research Establishment Atlantic, 1994, iii, 44 p. : ill., Bibl. (Technical communication / Defence Research Establishment Atlantic ; 94/306)
MICROLOG 94-06624 (1 fiche)

In support of a system study of Maritime patrol aircraft acoustic detection capability, the probabilistic assessment of realistic acoustic detection effectiveness (PARADE) model was developed. This model incorporates the effects of multiple sensors, multi-signal detection criteria, and realistic MPA operational scenarios. PARADE calculates cumulative probability of first detection using the complete probability distributions; thus, the results are deterministic and not Monte Carlo estimates. This report gives the input file descriptions and a user guide, a description of various post-processing utility programs, and a test case scenario with input files and sample graphical output.

Procedures and apparatus for measuring diffusion and distribution coefficients in compacted clays

By H.B. Hume. Chalk River, ON : Atomic Energy of Canada Ltd., 1993, 40 p. : ill., Bibl. (AECL research / Atomic Energy of Canada Ltd. ; AECL-10981 ISSN 0067-0367)
ISBN 0-660-15510-9
MICROLOG 94-06658 (1 fiche)

Diffusion and distribution coefficients are needed to assess the migration of radionuclides through the compacted clay-based buffer and backfill materials proposed for use in a nuclear fuel waste disposal vault. This report describes the techniques used to measure these coefficients. Both steady-state and transient diffusion experiments are discussed and the procedures used to prepare the clay plug, assemble the cell, conduct the experiment, and calculate the results are described. In addition, methods for obtaining distribution coefficients for radionuclides on both loose and compacted clays are discussed.

Profil de la pauvreté, 1992 : rapport

Conseil national du bien-être social (Canada). Ottawa : le Conseil, 1994. 79 p. : ill. *L'éd. anglaise (Poverty profile...)* : 94-06875/1. ISBN 0-662-99883-9 GCC-E no H67-1/4-1992F MICROLOG 94-06899 (1 fiche)

Le taux de pauvreté monte et descend constamment au Canada depuis 20 ans. Ce rapport présente une image statistique détaillée de la pauvreté au Canada et examine la pauvreté actuelle ainsi que les changements qu'on a pu noter au fil des ans en matière de pauvreté. Il indique aussi les tendances des revenus et des salaires moyens et se penche sur la répartition toujours inégale du revenu. On y trouve entre autres des statistiques sur la féminisation de la pauvreté, la pauvreté selon la province et l'âge, les liens entre le niveau de scolarité et la pauvreté, ainsi que sur la source de revenu principale.

Promotion de l'autonomie des personnes âgées par l'adaptation de leur domicile

Par D. Maltais ... et al. Ottawa : Société canadienne d'hypothèques et de logement, 1993. 118 p. : *Bibl.*

MICROLOG 94-06727 (2 fiche)

De 1987 à 1990, le Département de santé communautaire de l'Hôpital général de Montréal a développé, implanté et évalué une approche intensive d'adaptation du domicile, visant à promouvoir l'autonomie de personnes âgées. Ce document présente les principaux résultats obtenus en ce qui concerne la population rejointe, les modifications réalisées dans le domicile et les effets du programme sur le niveau d'autonomie des personnes âgées. Les trois premiers chapitres présentent de façon succincte les fondements théoriques du modèle mis en place, décrivent l'intervention pilote et apportent des informations sur le devis de recherche et le déroulement de la cueillette des données. Le quatrième chapitre décrit la population rejointe et nous éclaire sur les facteurs socio-économiques, de logement et de santé réalisation des adaptations. Le cinquième chapitre dresse le portrait des modifications apportées aux logements des personnes âgées et nous renseigne sur les coûts des travaux réalisés. Le sixième chapitre présente quant à lui les effets du programme sur le niveau d'autonomie des sujets et discute des résultats. Le dernier chapitre, les conclusions/recommandations résume les principaux résultats obtenus et propose un ensemble de recommandations au niveau des pratiques d'adaptation des domiciles des personnes âgées et de la recherche en maintien à domicile.

Reclamation techniques for soils treated with non-selective residual herbicides (soil sterilants)

By M. Cotton. Edmonton : Alberta Conservation and Reclamation Council, Reclamation Research Technical Advisory Committee, 1993. xi, 84 p. : ill., *Bibl.* (Report / Alberta. Reclamation Research Technical Advisory Committee ; RRTAC 93-12) ISBN 0-7732-6046-3
MICROLOG 94-06773 (2 fiche)

Soil sterilants have been used extensively in Alberta for total vegetation control around oil and gas wells, gas processing plants, and rights-of-way. Problems with such sterilants occur when a treated site is no longer viable for industrial use and the soil must be restored to its original productive state. This project was conducted to examine activated charcoal, manure, sawdust, waste activated charcoal, fly ash, commercial humates, commercial microbes, peat, and fertilizer for their effectiveness in reclaiming herbicide residues in soil under controlled environment and field conditions. The influence of amendment to herbicide ratio, soil type, depth of herbicide contamination, and number of incorporations on the effectiveness of the amendment was studied. The experiments were set up at Vegreville using a Chernozemic black silt loam soil treated with bormacil or tebuthiuron at rates of 2 and 6 kg/ha active ingredient, and at Devon on a loamy sand sub-soil with phytotoxic atrazine and diuron residues as high as 5 kg/ha active ingredient.

Regional seismic stratigraphic study of southwestern Manitoba : an interim report

By Z. Hajnal and C. Zhu. Winnipeg : Manitoba Energy and Mines, Geological Services, 1994. v, 6 p. : ill., *Bibl.* (Open file report / Manitoba. Geological Services Branch ; OF93-3)
MICROLOG 94-06396 (1 fiche)

In the mid-1980s, an industry supported regional stratigraphic study of the Williston Basin was begun. A significant number of hydrocarbon exploration organizations released high quality seismic data in the compilation of an over 1,000 km long east-west directional seismic stratigraphic section stretching between Virden, Manitoba and Taber, Alberta. A recent additional release of new information permitted the continuation of the program resulting in a larger coverage of southwestern Manitoba. This report contains the processing results of the first 200 km of this new seismic data. The information was originally collected by Chevron Resources Ltd. of Canada and includes lines 2, 2A, 2B, 37Y, and 35.

Regulatory processes fact-finding project

By A. Neilson-Welch. Ottawa : Canada Mortgage and Housing Corporation, 1992. 129 p. : *Bibl.*
MICROLOG 94-06726 (2 fiche)

In the Fall of 1992, the National Housing Research Committee began a two-part study on housing access and affordability. Under Part II, a number of fact-finding projects were carried out to learn more about supply-side factors that influence housing affordability across Canada. This fact-finding project

presents data on regulatory processes. The project consists of two separate sections. Section 1 is a survey of ten Canadian municipalities - one per province - that identifies the types of steps and time requirements of the regulatory processes that must be followed to develop housing in Canada. Section 2 is a study of municipal initiatives that are included from cities in Canada and the United States. Each section begins with a short introduction, followed by a description of the section's focus, the methodology employed, the organization of the section, and finally the information that was gathered. The information in section 1 is presented in table form and in fact sheets in section 2.

Repeat users of the unemployment insurance program

By M. Corak. Ottawa : Statistics Canada, Analytical Studies Branch, 1992. iii, 38 p. : ill., Bibl. (Research paper series / Statistics Canada. Analytical Studies Branch ; no. 43)
MICROLOG 94-06950 (1 fiche)

The purpose of this paper is to document the extent of repeat use of the Canadian unemployment insurance program, and to examine some of the associated individual characteristics. Administrative data that cover the period from mid 1971 to early 1990 are used. A great deal of repeat use is documented. Under the broadest of definitions U.I. repeaters represent about 80 per cent of claimants in any given year. There are broad variations in the pattern of repeat use according to seasonality, industry of employment, and region of residence. There are also significant variations in the incidence of repeat use according to age. The young of both genders are particularly likely to be U.I. repeaters. Some suggestions as to possible interpretations of these patterns is also presented.

Review of the draft workplan on fiscal and jurisdictional issues

Working Group on Fiscal and Jurisdictional Issues (Canada). Baddeck, NS : The Group, 1993. 8 p. : Bibl. On cover: 34th Annual Premiers' Conference. On cover: Ontario. MICROLOG 94-06723 (1 fiche)

At the ministers/leaders meeting held in Inuvik, N.W.T., July 12-13, ministers and leaders agreed that a working group, under the auspices of a steering committee of ministers and Aboriginal leaders be established to develop a draft workplan to be presented at the Annual Premiers Conference. The workplan is to flesh out the requirements for a database on: federal/provincial Aboriginal spending; provincial legislation with respect to Aboriginal matters; and, potential options for cooperative action including agreements and frameworks for fiscal relations and jurisdictional responsibilities. This document presents the review of the draft workplan on fiscal and jurisdictional issues.

A River classification system for New Brunswick : an overview of the proposed system

Fredericton : Dept of the Environment, Land & Water Planning Section, 1993. 6 p. French ed. (Un Système de...) on the same fiche. MICROLOG 94-06935 (1 fiche)

Water classification is a method of planning and managing water quality and the competing uses of water. It is a technical and administrative procedure whereby units of water are placed into categories based on the existing water quality, desired level of protection or desired end use. Waters so classified are then managed according to criteria associated with their classification. This document presents an overview of the proposed system.

The Role of colloids and suspended particles in radionuclide transport in the Canadian concept for nuclear fuel waste disposal

By P. Vilks. Chalk River, ON : Atomic Energy of Canada Ltd., 1994. 68 p. : ill., Bibl. (AECL research / Atomic Energy of Canada Ltd. ; AECL-10280 ISSN 0067-0367) ISSN 0067-0367 ISBN 0-660-15511-7 CCG-P no. CC2-10280E MICROLOG 94-06848 (1 fiche)

AECL Research is developing a concept for the permanent disposal of nuclear fuel waste in a deep engineered vault in plutonic rock of the Canadian Shield and is preparing an environmental impact statement (EIS) to document its case for the acceptability of the disposal concept. This report addresses the role of particles in radionuclide transport. It summarizes studies of natural particles in groundwater and presents the arguments used to justify the omission of particle-facilitated transport in the geosphere model that is based on the White-shell Research Area and used in the postclosure assessment study case.

Saskatchewan River study : water quality of Codette Reservoir, 1986-90

Regina : Saskatchewan Environment & Resource Management, Municipal Branch, Water Quality Assessment Unit, 1993. xvi, 243 p. : *ill.*, *Maps*, *Bibl.* *Summary* (10 p.) *laid in*.
MICROLOG 94-06918 (3 fiche)

In fall 1985, Codette Reservoir was created by damming the Saskatchewan River to provide water for power generation at the Nipawin hydroelectric station. During the environmental assessment process, a number of water quality concerns were identified, including depletion of dissolved oxygen, eutrophication, high bacteria levels, and curtailment of flows with the operation of the hydroelectric station. Because of these concerns, an intensive study of the reservoir and the river reach downstream of the dam was undertaken in 1985. This report presents the results of the field surveys conducted from 1986-90. It also includes the historical water quality data for the river prior to inundation as well as the results of the studies conducted for the Saskatchewan Power Corp. from 1986-90.

School law and the Charter : balancing interests

Fredericton : Public Legal Education and Information Service of New Brunswick, 1994. 44 p. ISBN 1-55137-243-6
MICROLOG 94-06827 (1 fiche)

The purpose of this publication is to provide both teachers and students with an overview of how the Canadian Charter of Rights and Freedoms applies to public education. It is intended to explore how the rights of individuals under the Charter, including students, are balanced with the interests of society as a whole. A number of topics are reviewed, such as student rights and responsibilities in the areas of speech and expression, personal appearance, freedom of association and equality in school. The publication also deals with such issues as search, seizure and detention, as well as punishment and procedural rights. Case law is cited to provide insight into how the courts are interpreting school law issues in light of constitutional rights.

Screening report : Lafarge Canada Inc., tire derived fuel project

Edmonton : Alberta Environmental Protection, 1994. 41 p. : *ill.*, *Maps*, *Bibl.*
MICROLOG 94-06943 (1 fiche)

LaFarge Canada Inc. submitted a proposal to use tire derived fuel (TDF) as a supplementary fuel at their cement manufacturing facility at Exshaw in the Municipal District of Bighorn. Scrap tires recovered under the recycling program managed by the Tire Recycling Management Board would replace an annual average of 12% of the natural gas now used in Kiln #5, a precalciner type kiln. The proposal was subject to public screening under the Alberta Assessment Process. Alberta Environmental Protection considered submissions from the public, including individuals, a project specific community steering committee, local government and health agencies, and special interest groups, and LaFarge Canada Inc., and evaluated the potential for adverse effects on the environment and public health. This report describes the project and provides technical information, as well as information on the public consultation and implications for public health.

Sedimentology and stratigraphy of the Mesoproterozoic Elwin subgroup (Aqililik and Sinasiuvik formations), uppermost Bylot supergroup, Borden Rift Basin, northern Baffin Island

By R.D. Knight and G.D. Jackson. Ottawa : Energy, Mines and Resources Canada, Geological Survey of Canada, 1994. 43 p. : *ill.*, *Maps*, *Bibl.* (Bulletin / Geological Survey of Canada ; 455) *Fold. maps not filmed*. ISBN 0-660-15497-8 CCG-P no. M42-455E
MICROLOG 94-06656 (1 fiche)

This investigation of the Elwin Subgroup (Aqililik and Sinasiuvik formations) was conducted to redefine, describe, and interpret the sedimentology and stratigraphy of the previously defined Elwin Formation in the context of the tectonic evaluation of Borden Rift Basin. This was done through an analysis of individual lithologies, identification of strata cycles and grouped associated lithologies, and packaging of the strata into a basin-fill model. Subdivisions of the newly formed subgroup are identified by the presence of an association of lithologies that define a depositional environment that is recognizably distinct from that of adjacent strata. Conclusions are also drawn from this hierarchical process concerning the depositional history of the newly defined Elwin Subgroup as well as tectonic activity within Borden Rift Basin during its deposition.

Shrinking a floating rim design hydraulic generator rotor to improve the air gap mechanical stiffness

By G. Haines. Montreal : Canadian Electrical Assn, Hydraulic Power Section, Rotating Machines Subsection, 1994. 12 p. : ill. *Presented at Electricity '94 : a new energy order.* MICROLOG 94-06527 (1 fiche)

The degree to which a hydraulic generator is capable of withstanding imbalances in the air gap without exceeding the mechanical limits of the generator components is referred to as the air gap mechanical stiffness. The generator rotors of the units discussed in this paper were of an unshrunk, floating rim type of design. The combination of a low rotor stiffness factor, a peaking mode of operation, and abnormal turbine vibrations have led to significant problems with the generator rotor, with severe cracking recently found in the rotor spider assembly. In an attempt to improve the mechanical stiffness of the rotor, the spider was reinforced and the rim was shrunk onto the spider. This paper discusses the steps involved with this modification and the results achieved to date.

Simplified three-phase transformer model : equivalent circuit and laboratory test measurements

By S. Chimklai and J.R. Marti. Montreal : Canadian Electrical Assn, Engineering and Operating Division, 1994. 9 p. : ill., *Bibl.* *Presented at Electricity '94 : a new energy order.* MICROLOG 94-06557 (1 fiche)

This paper presents a simplified transformer model suitable for high frequency applications. The model can be viewed as a modified high frequency applications that can be viewed as a modified version of the simple 60-Hz equivalent circuit and contains only lumped circuit elements. Stray capacitances and frequency dependent ohmic and leakage losses are added to the classical model. The frequency derived from a minimum-phase-shift rational function approximation of the short-circuit impedance. The resulting model is guaranteed to be numerically stable. The paper also describes a set of experimental measurements performed on a 50 MVA three-phase transformer to obtain the parameters of the proposed model.

Spacer damper spacings to reduce damage due to aeolian and wake induced vibration

By D.G. Havard ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Transmission Section, 1994. 12 p. : ill., Bibl. Presented at Electricity '94 : a new energy order.
MICROLOG 94-06568 (1 fiche)

Conductor damage at clamps of spacer-dampers on 500 kV four-conductor bundle lines in Ontario Hydro is attributed to improper clamping that leads to loosening of the clamps as a result of wind driven aeolian and wake induced vibration. This paper describes the work to determine the existence of wake induced vibration and to develop methods of its mitigation. It includes a review of research studies on the torsional stability of bundles done in the 1970s, on the vibration modes of a 1/40 scale physical model of a four-conductor bundle span, and on a new method of assessment results, as well as work from other sources, have led to a set of principles for the ratio of length of adjacent subspans, and for maximum subspan length, to control aeolian and wake induced vibration modes. The paper describes a specially designed cable cart used in the practical implementation of these changes in the field.

Standardized testing in Canada : a survey of standardized achievement testing by ministries of education and school boards

By R. Traub. Toronto : Canadian Education Assn, 1994. 52 p. : Bibl. French ed. (Les Tests...); 94-06322/1. ISBN 0-920315-64-X
MICROLOG 94-06323 (1 fiche) (Available on fiche only)

A survey was undertaken to obtain information about the use of standardized tests in assessing the achievement of Canadian elementary and secondary school students. This information was gathered from the ministries or departments of education of all ten Canadian provinces and one territory, and a sample of about 120 of the local school boards in the country. The questionnaires sent to the ministries and school boards were similar, and consisted of two parts. The first part contained questions of a general nature about the province-wide testing program, if any, that had been conducted during the 1991-92 school year. The second part of the questionnaire was focused on the particular tests used in system-wide testing by province or board during any of the four academic years

1989-90 to 1992-93.

Brief overview of the Canadian Electrical Association's technical report ST-384, submitted by Memorial University in Newfoundland. The project reviewed state-of-the-art practices in the design and installation of direct embedment pole structures. A questionnaire analyzed the views of the utility industry and current practices in various utilities were reviewed in the light of specifications stipulated by the industry. Recommendations are included.

Static pilot exciters : an alternative at one fifth the cost

By G.M. Wilkinson. Montreal : Canadian Electrical Assn, Hydraulic Power Section, Rotating Machines Subsection, 1994. 12 p. : ill. *Presented at Electricity '94 : a new energy order.*
MICROLOG 94-06525 (1 fiche)

Generator voltage regulators that use magnetic amplifier technology are 50 years old and utilities using them face the problem of equipment failure and no product support. Ontario Hydro has developed an approach to replacement that maximizes utility and minimizes cost. This paper describes experiences with static pilot exciters and evaluates some alternatives. Topics covered include cost, speed of response, maintainability, and ease of integration into high level control schemes.

Status and future requirements for socio-economic research and public communications and consultations

Praxis (Firm). Edmonton : Northern River Basins Study, 1994. 68 p. (Northern River Basins Study project report / Northern River Basins Study (Canada) ; no. 31 ISSN 1192-3571)
ISBN 0-662-22039-0 CCG-P no. R71-49/3-31E
MICROLOG 94-06650 (1 fiche)

This report identifies and verifies major water-related issues and stakeholder groups in the Northern River Basins area. Using minutes and transcripts of public meetings and public hearings, newspaper articles and literature from special interest groups, specific issues are identified and a preliminary framework of fourteen issue areas is developed. In addition, about 290 stakeholder organizations are

identified. The report also reviews the usefulness of different research techniques and proposes a multi-tiered approach for subsequent work to determine how the stakeholders and issues are linked.

Status and trends in distribution automation

By R.M. Godfrey and P.A. Robiou. Montreal : Canadian Electrical Assn, 1994. 6 p. : ill., Bibl. *Presented at Electricity '94 : a new energy order.*
MICROLOG 94-06579 (1 fiche)

Summary of an investigation commissioned by the Canadian Electrical Association (CEA) into the status and trends of distribution automation in North America. The investigation reviewed published literature; collected data from utilities, equipment vendors, and industry experts; and compiled and synthesized these various insights into a broad picture of recent experience, present status, and near-term and long-term development trends. It examined general trends, distribution supervisory control and data acquisition (SCADA), AM/FM, distribution automation functions, industry standards, and technological development.

The Status, ecology and conservation of marine birds of the North Pacific : proceedings of a symposium

Edited by Kees Vermeer... et al. Ottawa : Environment Canada, Canadian Wildlife Service, 1994. 263 p. : ill., Maps, Bibl. (Special publication) *Includes a treasurer's report, 5-year financial statements and schedules, audited financial statements, and other financial schedules.*
ISBN 0-662-20359-3 CCG-P no. CW66-124/1993E
MICROLOG 94-06441 (3 fiche)

Proceedings of a symposium covering bird distribution in the Bering Sea, in the central North Pacific, off the coasts of British Columbia and Washington, and in the California current, and explores the effects of climate changes such as the El Niño/Southern Oscillation and potential global warming on seabirds and their prey. The second section includes chapters on nesting and visiting seabirds in the North Pacific, from the Tropic of Cancer in the south to the Bering Sea in the north. Bird groups covered are albatrosses, fulmars, gadfly petrels and storm petrels, shearwaters, gulls, kittiwakes, terns, guillemots, murrelets, murres, puffins, and aukslets. The third section includes chapters on the effects of environmental hazards such as gillnetting, introduced predators, human disturbance, plastic ingestion, contamination by trace metals and chlorinated hydrocarbons, and oil spillage on marine birds.

The Status of land management practices on agricultural land in Canada : compiled from the 1991 Census of Agriculture

By J. Dumanski ... et al. Ottawa : Agriculture Canada, Research Branch, Centre for Land and Biological Resources Branch, 1994. xiv, 46 p. : ill., Maps (CLBRR contribution / Center for Land and Biological Resources Research (Canada) ; no. 94-36) (Technical bulletin and Canada. Agriculture and Agri-Food Canada. Research Branch ; 1994-3E) ISBN 0-662-22163-X CCG-P no. A54-8/1994-3E
MICROLOG 94-06712 (1 fiche)

This report records how agricultural land is used and managed in Canada using responses from the 1991 census of agriculture; produces a study to serve as a baseline for all subsequent monitoring of land management practices through the census; and provides information for environmental studies of soil and water. An overview of land management describes applications of nutrients, herbicides, and pesticides and methods used to control soil erosion. Summaries of land practices are given by region (British Columbia, the Prairies, Central Can-

ada, and Atlantic Canada), and cover manure, fertilizers, herbicides and pesticides, irrigation, erosion control, and tillage methods.

Status of Ontario Hydro R&D to control zebra mussels and mitigation strategies used

By R. Claudi. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Thermal and Nuclear Power Section, Environmental Requirements Subsection, 1994. 9 p. *Presented at Electricity '94 : a new energy order.*
MICROLOG 94-06531 (1 fiche)

To date, many different chemical and non-chemical techniques have been investigated for the control of zebra mussels, with the treatment of choice being based on chemical control in both Europe and North America. This is likely to change as environmental constraints on the release of chemicals into natural water bodies continues to increase. This paper describes the different mitigation measures used and those that are proposed for the control of zebra mussels in industrial systems, particularly power generating facilities.

Straight facts about drugs and drug abuse

Regina : Saskatchewan Health ; Ottawa : Health Canada, 1994. 24 p.
MICROLOG 94-06761 (1 fiche)

This booklet was written to answer some of the more common questions about drugs and drug abuse. The first part looks at drug issues from a general point of view, without going into detail about individual drugs except when they are used as examples. The text is divided into four major sections, each one dealing with a separate drug-related issue. The second part of the booklet consists of seven charts designed as a quick, ready reference for more detailed information on drugs. Each chart covers a major drug family. The charts contain detailed information on the individual drugs within each drug family, including a description of each drug, its origins and medical uses, its short- and long-term effects, its addictive properties, and its legal status. For quick reference the booklet also includes a summary listing of each of the drug families and an index of individual drugs. Brand names rather than generic designations are used for prescription drugs.

Study of the impact of ghost fishing on snow crab, *Chionoecetes opilio*, by conventional conical traps

By R. Vienneau and M. Moriyasu. Moncton, NB : Dept. of Fisheries and Oceans, Gulf Fisheries Centre, 1994. iv, 9 p. : ill., Bibl. (Canadian technical report of fisheries and aquatic sciences / Canada. Dept. of Fisheries and Oceans ; no. 1984 ISSN 0706-6457) ISSN 0706-6457 CCG-P no. Fs97-6/1984E MICROLOG 94-06939 (1 fiche)

To quantify the impact of ghost fishing by lost, abandoned, or illegally submerged conventional conical traps on the snow crab industry, a snow crab trap retrieval project was initiated. For two weeks in July 1989, eight vessels conducted the experimental project that resulted in the retrieval of 324 traps containing a considerable number of male snow crabs. A galvanic time release mechanism was installed on all snow crab traps to eliminate the problem. This study investigated whether lost conical traps continue to catch snow crab and determined the catch rates based on a one-year experimental fishing season in Baie des Chaleurs.

Submission to the Special Joint Committee on a Renewed Canada

Ottawa : Federation of Canadian Municipalities, 1991. 18 p. : Bibl. MICROLOG 94-06715 (1 fiche)

The Federation of Canadian Municipalities (FCM) is the national organization representing the interests of local governments across Canada. FCM works with the federal government to ensure that the municipal view point is known and considered in policy making. Through its provincial and territorial affiliates, FCM also seeks cooperative working relations with provincial governments. For FCM, there are few issues more important than the need to renew the Canadian Federation. This paper focuses specifically on that topic and looks at the interest of the FCM in securing some form of recognition of the existence and role of municipalities in the Canadian political system.

A Summary of water chemistry changes following hydroelectric development in northern Manitoba, Canada

By D.A. Williamson and W.E. Ralley. Winnipeg : Dept. of Environment, Environmental Management Division, Water Quality Management Section, 1993. xlv, 68 p. : *Bibl.* (Water quality management report / Manitoba. Water Quality Management Section ; no. 93-2)
MICROLOG 94-06432 (1 fiche)

The Federal and Manitoba Governments and Manitoba Hydro have been conducting studies to assess the impacts of northern Manitoba hydroelectric projects on the biological, chemical, physical, and social-economic environment. Manitoba Environment, in cooperation with other provincial and federal agencies, has undertaken three major studies to determine water quality changes caused by Churchill River diversion and Lake Winnipeg regulation. This report presents a summary of the results from these studies along with interpretive judgments that determine through extrapolation the probable impacts that the observed changes may have had on other sectors of the biophysical environment. Information is presented by the major river systems of the Churchill River, Diversion Route, Upper Nelson River, and Lower Nelson River. Within each of these regions, the information is further subdivided according to proximity to communities signatory to the Northern Flood Agreement of 1977.

Centre for Cold Ocean Resources Engineering ; 93-24) In *Proceedings of the Institute of Electrical and Electronics Engineers, Inc., NECEC '93*. MICROLOG 94-06473 (1 fiche) (Available on fiche only)

Vertical log-periodic dipole array (VLPDA) antennas are usually used as the transmitting antenna in high frequency (HF) ground wave radar systems. Due to the presence of ground, the array must be skewed to overcome frequency sensitivity and allow broadband application. This work establishes a procedure for determining the particular geometry of a skewed VLPDA antenna that acquires certain radiation characteristics. Within a specified frequency band, and based on scale factor, spacing factor, and a newly introduced height factor, graphs of antenna characteristics were developed using the moment method. For a particular set of desired radiation characteristics, these graphs are used to aid in determining if the skewed VLPDA can deliver the desired characteristics and determine the closest values of scale, spacing, and height. Un Système de classification des cours d'eau du Nouveau-Brunswick : un sommaire du système proposé

Frédéricton : Ministère de l'environnement du Nouveau-Brunswick, Section de la planification de l'utilisation des terres et des eaux, 1993. 7 p. L'éd. anglaise (*A River classification...*) sur la

même fiche. MICROLOG 94-06935 (1 fiche)

La classification des cours d'eau est une méthode pour gérer la qualité et les utilisations conflictuelles de l'eau. C'est une modalité administrative et technique qui prévoit le regroupement des étendues d'eau en catégories basées sur la qualité actuelle de l'eau, le degré souhaité de protection ou l'utilisation finale visée. Les cours d'eau classés selon cette méthode sont ensuite gérés en fonction des critères de leur classification. Ce document présente un sommaire du système proposé. AP NR PR SC

Systèmes d'information sur les délinquants sexuels qui s'en prennent à des enfants : document de travail

Groupe de travail interministériel spécial concernant les systèmes d'information sur les délinquants sexuels qui s'en prennent à des enfants (Canada). Ottawa : le Groupe, 1994. 21 p. : Bibl. L'éd. anglaise (*Information systems on child sex offenders...*) sur la même fiche. MICROLOG 94-06711 (1 fiche)

Nous discutons dans ce document des solutions qui supposent la création de systèmes d'information perfectionnés pouvant être utilisés pour vérifier les antécédents de candidats à des postes. Plus précisément, nous nous penchons sur les points suivants : le problème, les solutions possibles, les renseignements généraux sur l'exploitation sexuelle des enfants, les recommandations récentes en faveur d'un "registre national", les systèmes d'information en place au Canada, et les questions liées à la communication de renseignements au public. Taxe de vente du Québec, 1er juillet, 1992 : questions, réponses

Québec : Gouvernement du Québec, Ministère du revenu, 1992. 44 p. ISBN 2-550-26890-3 MICROLOG 94-06692 (1 fiche)

Le nouveau régime de la taxe de vente du Québec (TVQ) est entré en vigueur le 1er juillet 1992. Le champ d'application de la TVQ fut alors étendu aux fournitures de services et d'immeubles et la possibilité d'obtenir un remboursement de la taxe sur les intrants fut offerte aux entreprises. Cette brochure contient, sous forme de questions et de réponses, des exemples d'application des nouvelles règles relatives à la TVQ. Elle tient compte des modifications annoncées par le ministre des Finances du Québec, M. Gérard D. Lévesque, dans le Discours sur le budget 1992-1993. Cette brochure diffuse également certaines règles administratives visant à

faciliter la tâche des mandataires du ministère du Revenu du Québec.

TDMA microwave for SCADA : a case study

By I.B. Svanberg. Montreal : Canadian Electrical Assn, 1994. 18 p. : ill., *Bibl.* Presented at *Electricity '94 : a new energy order*.
MICROLOG 94-06577 (1 fiche)

Supervisory control and data acquisition (SCADA) networks can be used in the monitoring of industrial installations such as pipelines to improve the quality of operations, help in management decisions, and maximize production while maintaining safety margins. Since SCADA equipment and its transport network must have a higher reliability than the process it is intended to monitor, the use of the public network is seldom an option, while time division multiple access (TDMA), with its point-to-multipoint system configuration, is a natural fit for SCADA applications and also meets the requirements of continuous quality testing. This paper describes the TDMA microwave system and explores its use as a transport network in a SCADA application. It also includes a case study from the British Columbia gas industry that provides a simplified description of the distribution/transport process to emphasize the necessity of automatic control and reliable telecommunication networks. BC Gas and Westcoast Energy's TDMA microwave network topologies are also described.

Technological and economic evaluations of the LIMB and Coolside processes

By P.S. Nolan ... et al. Montreal : Canadian Electrical Assn, Thermal and Nuclear Power Section, 1993. 10 p. : ill., *Bibl.* Presented at *Thermal and Nuclear Power Generation Conference*.
MICROLOG 94-06506 (1 fiche)

The demonstration of two sorbent injection technologies, limestone injection multistage burner (LIMB) and Coolside, has recently shown them to be low capital cost alternatives to conventional wet flue gas desulfurization (FGD) systems. This paper first provides a brief summary of the technical results obtained. These form the basis for hypothetical commercial designs used in the economic analysis and comparison with wet limestone forced oxidation (LSFO) FGD. The evaluation concentrates on the capital and annual levelized costs associated with sulphur dioxide removal for the three processes. The discussion includes comparison of the fixed and variable operating costs. The analysis describes the ranges of applicability for each technology in all the commercial environments assumed, as well as cost sensitivities to more influential parameters.

Testing modern protective relays

By R.J. Martilla. Montreal : Canadian Electrical Assn, Power System Planning and Operation Section, Power System Protection Subsection, 1994. 17 p. : ill., *Bibl.* Presented at *Electricity '94 : a new energy order*.
MICROLOG 94-06551 (1 fiche)

Modern microprocessor-based relays for the protection of the various power system components such as generators, transformers, feeders, and high voltage transmission lines are becoming more sophisticated as increasingly more complex functions and capabilities can be included in the microprocessor. With this increasing complexity, and the increasing complexity of the power system itself, there is even more value in testing the suitability of relaying equipment for the intended applications. This paper reviews the testing philosophy, experience, and capabilities developed at Ontario

Hydro over more than 25 years of testing protective relays.

In 1984, the Canadian petroleum industry and regulatory authorities initiated the development of a code for the design, construction, and installation of fixed offshore structures. The code comprises five parts and incorporates a limit states design methodology. Target reliability levels are defined and are expressed as an annual probability of failure. This paper describes some of the studies undertaken in the development of the standard and commentary and highlights some of the conclusions reached regarding incorporation of safety and resistance factors in the standard.

Vers une nouvelle ère en foresterie durable : le plan stratégique du Service canadien des forêts en matière de sciences et de technologie, 1995-2000

Ottawa : Ressources naturelles Canada, Service canadien des forêts, Direction des sciences et du développement durable, 1994. vi, 11, v, 11 p. *Bilingue (Toward a new era in...)*. ISBN 0-662-61215-9 GCC-E no Fo42-220/1994 MICROLOG 94-06826 (1 fiche)

De nos jours, les approches de gestion des forêts plus holistiques et durables sont reconnues comme la voie de l'avenir. Même si des pas de géant ont été faits dans cette direction, il faudra relever une multitude de défis dans le domaine des sciences et de la technologie (S.T.) avant de pouvoir réaliser pleinement le développement durable des forêts. Ce document expose le plan stratégique qui orientera le programme des S.T. du Service canadien des forêts de 1995 à l'an 2000. CA EV FO ND SC

Vers une réconciliation : compte rendu de la quatrième série d'audiences

Canada. Commission royale sur les peuples autochtones. Ottawa : la Commission, 1994. ix, 121 p. *En tête du titre: Audiences publiques. L'éd. anglaise (Toward reconciliation...)* : 94-06366/2. ISBN 0-660-94490-1 GCC-E no Z1-1991/1-11-1-4F MICROLOG 94-06365 (2 fiche)

Ce compte rendu marque la fin du processus d'audiences publiques amorcé en avril 1992 par la Commission sur les peuples autochtones avec la tenue d'une cérémonie spéciale à Winnipeg, en plein cœur du continent nord-américain - la tortue. Il est structuré comme les précédents et vise à rendre les témoignages accessibles aux personnes intéressées par les questions autochtones ou par les travaux de la Commission sans qu'elles aient à consulter les transcriptions. On s'est efforcé de réunir sous des thèmes communs les domaines au sujet desquels de nombreux intervenants ont présenté des opinions similaires. CA DE NP SS

Water quality assessment of the Turtle River and two tributaries, Manitoba, Canada

By D.A. Williamson, M.P. Boychuk and M.T. Ledoux. Winnipeg : Dept. of Environment, Environmental Management Division, Water Quality Management Section, 1992. ix, 52 p. : *ill.*, *Bibl.* (Water quality management report / Manitoba. Water Quality Management Section ; no. 92-5) MICROLOG 94-06451 (1 fiche)

As part of a 20-year management plan for the Turtle River Watershed Conservation District, an intensive water quality study was conducted on Turtle River and two of its tributaries during 1990, 1991, and 1992 to address land-use related water quality issues. Samples were collected at two-week intervals from April to November at nine sampling locations on McKinnon Creek, Turtle River, and Hansen Creek and were analyzed for fecal coliform bacteria, total dissolved solids, total suspended solids, total phosphorous, and various nitrogen compounds. Water flow information and precipitation were obtained from Environment Canada. This report provides the results of the analysis. EV MS NR PR SC

Waterford River and Quidi Vidi watersheds : intensive survey report, 1989-90

By J.H. Pomeroy and G. Collins. Workers' Compensation Board of Nova Scotia : Annual report 1993

Halifax : The Board, 1994. 36 p. : ill.
MICROLOG 94-06409 (1 fiche)

The board is responsible for providing workers' compensation coverage to Nova Scotia employers and collection of assessment revenue. It classifies industries, determines rates and adjudicates claims resulting from work-related accidents, making decisions concerning the payment of claims as a result of reports from workers, employers, doctors and hospitals. It assists in the rehabilitation of workers returning to the work force, as well as the permanently disabled. To assist in claims processing the Board's Medical Department performs physical examinations and acts as medical advisor in the claims adjudication. This annual report briefly outlines accomplishments for the fiscal year and presents the financial statements. In addition, tables present statistics for claims processed during the year: accidents, causes of accidents, types of injuries, and an analysis by age, occupation, and county.

Working for welfare

Ottawa : National Council of Welfare, 1994. 9 p. : *Bibl.* *French ed. (Les Programmes...)* on the same fiche.
MICROLOG 94-06765 (1 fiche)

One of the most emotional and misunderstood issues in Canadian welfare policy is whether adults who are considered to be "employable" should be required to work to receive welfare and, if so, under what conditions. This paper describes existing limits on work-related programs for welfare recipients in Canada and reviews the experience of state and local governments in the U.S. in seeking to get

people off the welfare rolls. It also makes the case for controlled experiments in Canada to determine what kinds of employment programs are most effective.

Your community and the Call Centre : a guide to Call Centre opportunity evaluation

Winnipeg : Manitoba Rural Development, 1994. 28 p. : *Bibl.*
MICROLOG 94-06382 (1 fiche)

Simply put, a Call Centre is a business unit that uses a group of agents, often called Telephone Sales Representatives, or Customer Service Representatives, to conduct specific transactions on the telephone. These calls can be incoming or outgoing to the central point referred to as the Call Centre. This guide is the result of a research project conducted by Manitoba Rural Development in conjunction with Manitoba Telephone System. It is an evaluation guide designed to provide basic information to potential investors and/or community leaders in rural Manitoba who are interested in evaluating the opportunities surrounding "The Call Centre". It identifies three main types of Call Centre operations and the essential components of each.

Youth gangs on youth gangs

By F. Mathews. Ottawa : Solicitor General Canada, Police Policy and Research Division, 1993. v, 111 p. : *Bibl.* (User report / Canada. Corrections Branch : 1993-24) *French ed. (Les Bandes de jeunes...)* : 94-06634/2. ISBN 0-662-21145-6 CCG-P no. JS4-1/1993-24E
MICROLOG 94-06709 (2 fiche)

The purpose of this study is to define the phenomenon of youth gangs/groups in its current manifestation in Metropolitan Toronto and southern Ontario and provide information for use in the development of appropriate policy and program responses and, ultimately, structural and systemic changes in the

delivery of service to victims, gang/group members, and "at risk" and non-offending youth. The study's objectives are to: elicit the thoughts and feelings of young people involved in youth gang/group activity and add their voices and perceptions to both the literature and the current public and media discourse on the phenomenon as it exists today in Canadian society; compare and contrast the perceptions of youth gang/group members with those of the adult professionals, school officials, police, and social workers who are closely associated with them on a daily basis; and, use information obtained in the study to develop conceptual models that will assist government, police, school officials, and youth service providers in better understanding youth gang/group involvement and gang/group crime and violence.

Design considerations for oil lift retrofit / By J. Seyler. Montreal : Canadian Electrical Assn, 1994. 17 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06521 (1 fiche) (Available on fiche only)

Canadian Electrical Assn (cont'd)

Development of a commercial radio frequency/vacuum kiln for drying softwood lumber / By R. Swick, B. Neilson and S. Avramidis. Montreal : Canadian Electrical Assn, 1994. 12 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06593 (1 fiche) (Available on fiche only)

Electrical savings from fan speed reduction in lumber dry kilns / By A.T. Chow, P. Garrahan and G. Fleury. Montreal : Canadian Electrical Assn, 1994. 9 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06590 (1 fiche) (Available on fiche only)

Electronic wall mounted line-voltage thermostats for electric space heating systems / By L. Handfield ... et al. Montreal : Canadian Electrical Assn, 1994. 20 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06600 (1 fiche) (Available on fiche only)

Intelligent transformer monitoring / By P.C. Allwes. Montreal : Canadian Electrical Assn, 1994. 8 p. : *ill. Presented at Electricity '94 : a new energy order* MICROLOG 94-06586 (1 fiche) (Available on fiche only)

A North American collaboration to achieve compatibility between electrical and electronic systems / By T.S. Key. Montreal : Canadian Electrical Assn, 1994. 11 p. : *ill. Presented at Electricity '94 : a new energy order* MICROLOG 94-06597 (1 fiche) (Available on fiche only)

Planning and Operating Electrical Power Systems with Energy Uncertainty / Planning and Operating Electrical Power Systems with Energy Uncertainty Workshop (1993 : Winnipeg, Man.). Montreal : Canadian Electrical Assn, 1993. 455 p. : *ill., Maps, Bibl. MICROLOG 94-06512 (5 fiche) (Available on fiche only)*

Prevention and early detection of aluminium rotor bar and end ring failure in large utility motors / By A.D. Mukherji. Montreal : Canadian Electrical Assn, 1994. 23 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06526 (1 fiche) (Available on fiche only)

Status and trends in distribution automation / By R.M. Godfrey and P.A. Robiou. Montreal : Canadian Electrical Assn, 1994. 6 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06579 (1 fiche) (Available on fiche only)

TDMA microwave for SCADA : a case study / By I.B. Svanberg. Montreal : Canadian Electrical Assn, 1994. 18 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06577 (1 fiche) (Available on fiche only)

Technology in the food and beverage industry in Canada / By B. Houde. Montreal : Canadian Electrical Assn, 1994. 12 p. : *Presented at Electricity '94 : a new energy order* MICROLOG 94-06591 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Analytical Techniques of Insulation Coordination Committee

Incorporation of corona on transmission lines in the EMTP / By F. Castellanos and J.R. Marli. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operating Section, Analytical Techniques of Insulation Co-ordination Committee, 1994. 11 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06544 (1 fiche) (Available on fiche only)

Overhead distribution line models for harmonics studies / By M. Nagpal, W. Xu and H.W. Dommel. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operation Section, Analytical Techniques of Insulation Co-ordination Committee, 1994. 11 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06556 (1 fiche) (Available on fiche only)

Canadian Electrical Assn.**Commercial/Institutional Subsection**

Advance solid-state lighting : prospects and applications / By S.B. Peralta and H.E. Ruda. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Distribution Section, Commercial/Institutional Subsection, 1994. 13 p. : *Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06602 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Construction & Commissioning Subsection

Commissioning a CFB in a utility environment / By D. Campbell. Montreal : Canadian Electrical Assn, Thermal and Nuclear Section, Construction and Commissioning Subsection, 1993. 13 p. : *ill. Presented at Thermal and Nuclear Power Generation Conference* MICROLOG 94-06511 (1 fiche) (Available on fiche only)

Commissioning and operating experience at the New Brunswick Electric Power Belledune Generating Station / By R. Pickles and A.G. Heap. Montreal : Canadian Electrical Assn, Thermal and Nuclear Section, Construction and Commissioning Subsection, 1993. 17 p. : *ill. Presented at Thermal and Nuclear Power Generation Conference* MICROLOG 94-06503 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Corporate Resources Division

Control of vegetation under B.C. Hydro transmission lines using a foliar WIPE-ON device / By R. Roddick ... et al. Montreal : Canadian Electrical Assn, Corporate Resources Division, 1994. 10 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06575 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Distribution Section

Distribution system voltage stabilization and power quality enhancement using modulated filter / By A.M. Sharaf, H. Huang and L.A. Snider. Montreal : Canadian Electrical Assn, Distribution Section, 1994. 12 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06596 (1 fiche) (Available on fiche only)

Energy savings through proper selection of small pumps / By T. Kaminski and M. Ahad. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Distribution Section, 1994. 14 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06603 (1 fiche) (Available on fiche only)

Heat pump R&D needs for Canadian conditions / By T. Kaminski and D. Grier. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Distribution Section, 1994. 14 p. : *Maps, Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06598 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Distribution Transformers Committee

A Model for distribution transformers replacement economics / By F. Fontaine. Montreal : Canadian Electrical Assn, Engineering & Operating Division, Distribution Section, Distribution Transformers Committee, 1994. 7 p. : *ill. Presented at Electricity '94 : a new energy order* MICROLOG 94-06595 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Electrical and Operating Division

Detection of internal faults in distribution transformers / By T. Einarson, N. Cuk and M. Fischer. Montreal : Canadian Electrical Assn, Electrical and Operating Division, 1994. 10 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06606 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Electrical Performance of Insulators Committee

Evaluation of aged composite insulators from Brighton and Nova Scotia / By Y. Beauséjour, J. Kuffel and A.J. Vandermaar. Montreal : Canadian Electrical Assn, Engineering and Operations Division, Power Systems Planning and Operations Section, Electrical Performance of Insulators Committee, 1994. 20 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06538 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Engineering and Operating Division

Adapting controllable series capacitors to different transmission purposes / By L. Angquist, P. Halvarsson and H. Othman. Montreal : Canadian Electrical Assn, Engineering and Operating Division, 1994. 11 p. : *ill. Presented at Electricity '94 : a new energy order* MICROLOG 94-06559 (1 fiche) (Available on fiche only)

Disposal of residue from Nova Scotia Power's 165 MWe CFB boiler / By P.R. Merriam, J.D. Cousins and W.H. Richards. Montreal : Canadian Electrical Assn, Engineering and Operating Division, 1993. 13 p. : *ill., Maps, Bibl. Presented at Thermal and Nuclear Power Generation Conference* MICROLOG 94-06509 (1 fiche) (Available on fiche only)

Penstock rupture detector at Bridge River / By J.W. Taylor. Montreal : Canadian Electrical Assn, Engineering and Operating Division, 1994. 9 p. : *ill. Presented at Electricity '94 : a new energy order* MICROLOG 94-06516 (1 fiche) (Available on fiche only)

Power transformer tank rupture / By M. Foata and G. Khouzam. Montreal : Canadian Electrical Assn, Engineering and Operating Division, 1994. 27 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06587 (1 fiche) (Available on fiche only)

Simplified three-phase transformer model : equivalent circuit and laboratory test measurements / By S. Chintala and J.R. Marti. Montreal : Canadian Electrical Assn, Engineering and Operating Division, 1994. 9 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06557 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Environmental Requirements Subsection

Compliance with no net loss of fish habitat policy : Ontario Hydro experience / By G.F. Pope. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Hydroelectric Power Section, Environmental Subsection, 1994. 17 p. : *ill., Maps, Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06523 (1 fiche) (Available on fiche only)

Effects of power plant operations on NOx emissions / By D.W. Smith. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Thermal and Nuclear Power Section, Environmental Requirements Subsection, 1994. 17 p. : *ill. Presented at Electricity '94 : a new energy order* MICROLOG 94-06535 (1 fiche) (Available on fiche only)

Evaluation of the effectiveness of man-made spawning and rearing habitat in reservoirs and streams / By P. McKee, K. Reid and K. Schiefer. Montreal : Canadian Electrical Assn, Hydraulic Power Section, Environmental Subsection, 1994. 20 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06524 (1 fiche) (Available on fiche only)

Nova Scotia water license fee credit program / By T.P. Toner and R.G. Rice. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Hydraulic Power Section, Environmental Subsection, 1994. 14 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06529 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Environmental Requirements Subsection (cont'd)

Status of Ontario Hydro R&D to control zebra mussels and mitigation strategies used / By R. Claudi. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Thermal and Nuclear Power Section, Environmental Requirements Subsection, 1994. 9 p. : *Presented at Electricity '94 : a new energy order* MICROLOG 94-06531 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Environmental Subsection

See Canadian Electrical Assn. Environmental Requirements Subsection

Canadian Electrical Assn. Gas Turbine and Internal Combustion Subsection

Trends in design/construction of gas turbines/combined cycle and cogeneration plant in utility, IPP and industrial sectors / By M. Natarajan. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Thermal and Nuclear Power Section, Gas Turbine and Internal Combustion Sub-Section, 1993. 20 p. : *ill. Presented at Thermal and Nuclear Power Generation Conference* MICROLOG 94-06505 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Generation System Planning and Operating Subsection

Fuzzy logic in dispatch modelling / By M.E. El-Hawary. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operating Section, Generation System Planning and Operation Subsection, 1994. 15 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06554 (1 fiche) (Available on fiche only)

Ontario's demand/supply planning experience : lessons for the future / By S.K. Snelson. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operating Section, Generation System Planning and Operation Subsection, 1994. 14 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06552 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Health and Safety Section

See Canadian Electrical Assn. Occupational Health & Safety Section

Canadian Electrical Assn. HVDC and SVC Controls Committee

Kayenta advanced series compensation operational experience / By P. Krause ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operation Section, SVC & HVDC Controls Committee, 1994. 11 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06561 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. HVDC, SVC & Facts Devices Committee

Montagnais 735 kV series compensation : pre-test and commissioning of the digital protection equipment / By H. Bilodeau ... et al. Montreal : Canadian Electrical Assn, HVDC, SVC & Facts Devices Committee, 1994. 14 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06558 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Hydraulic and Rotating Electrical Equipment Subsection

Development of an on-line ozone monitoring system for air cooled generators / By D.E. Franklin ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Hydraulic Power Section, Hydraulic Plant Equipment Subsection, 1994. 20 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06530 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Hydraulic Power Section

Big Chute Redevelopment Conference / Big Chute Redevelopment Conference (1993 : Orillia, Ont.). Montreal : Canadian Electrical Assn, Engineering and Operating Division, Hydraulic Power Section, 1993. 76 p. : *ill., Maps, Bibl.* MICROLOG 94-06513 (1 fiche) (Available on fiche only)

Capacity upgrading of Mica and Kootenay Canal powerhouse bridge cranes / By J. Pocher. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Hydraulic Power Section, 1994. 21 p. : *ill. Presented at Electricity '94 : a new energy order* MICROLOG 94-06520 (1 fiche) (Available on fiche only)

Case history : Cross Lake weir in northern Manitoba / By A.G. Kuluk. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Hydraulic Power Section, 1994. 20 p. : *ill., Maps. Presented at Electricity '94 : a new energy order* MICROLOG 94-06515 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Hydraulic Power Subsection

Electricity '94 : a new energy order : home grown hydro, the key to regional and international business expansion / By P.A. Wiebe. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Hydraulic Power Subsection, 1994. 19 p. : *ill., Maps, Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06514 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Hydraulic Structures Subsection

Design and construction of Elcher penstock fish screens / By J.G. Matthews and J.W. Taylor. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Hydraulic Power Section, Hydraulic Structures Subsection, 1994. 6 p. : *Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06517 (1 fiche) (Available on fiche only)

Kenney Dam Release Facility : an overview / By C.J. Wilson and E.A. Portfors. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Hydraulic Power Section, Hydraulic Structures Subsection, 1994. 15 p. : *ill. Presented at Electricity '94 : a new energy order* MICROLOG 94-06518 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Insulation Coordination Subsection

Simulating travelling waves inside and outside GIS enclosures with the EMTP / By H.W. Dommel. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operating Section, Insulation Coordination Subsection, 1994. 8 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06545 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Line Design and Security Subsection

Reliability based design of transmission line structure foundations / By A.M. DiGiola, F.B. Newman and L.F. Rojas-Gonzalez. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Transmission Section, Line Design and Security Subsection, 1994. 17 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06572 (1 fiche) (Available on fiche only)

State-of-the-art on direct embedment foundations for pole structures / By K.S.R. Prasad, A.S.J. Swamidas and A.K. Haldar. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Transmission Section, Line Design and Security Subsection, 1994. 10 p. *Presented at Electricity '94 : a new energy order* MICROLOG 94-06570 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Line Hardware Subsection

Accelerated aging and testing of rubber inserts for spacer damper clamps / By H.A. Ewing. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Transmission Section, Line Hardware Subsection, 1994. 8 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06567 (1 fiche) (Available on fiche only)

Fatigue and fracture properties of aluminum casting alloys for line hardware components / By L. Malik, G. Bellamy and A.S.H. Lam. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Transmission Section, Line Hardware Subsection, 1994. 19 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06573 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Occupational Health & Safety Section

B.C. Hydro oil spill containment program / By A. Krikis and C.J. Fingler. Montreal : Canadian Electrical Assn, Occupational Health and Safety Section, 1994. 11 p. *Presented at Electricity '94 : a new energy order* MICROLOG 94-06608 (1 fiche) (Available on fiche only)

New and existing approaches for eradicating PCBs and other noxious chemicals / By R. Cormier and P. Lefebvre. Montreal : Canadian Electrical Assn, Electrical Worker Safety Section, Occupational Health and Safety Section, 1994. 12 p. *Presented at Electricity '94 : a new energy order* MICROLOG 94-06607 (1 fiche) (Available on fiche only)

The Role of the occupational health nurse/hygienist / By E.G. Taylor. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Health and Safety Section, 1994. 9 p. *Presented at Electricity '94 : a new energy order* MICROLOG 94-06605 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Power System Planning and Operating Section

Development of consistent transmission outage data reporting and analysis procedures by Alberta utilities / By A.A. Chowdhury ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operating Section, 1994. 13 p. : *Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06564 (1 fiche) (Available on fiche only)

Evaluation of the effectiveness of water release as a mitigation to protect fish habitat / By A.F. Lewis and A.C. Mitchell. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operating Section, 1994. 17 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06528 (1 fiche) (Available on fiche only)

Hierarchical power system reliability evaluation using the Canadian Electrical Association database / By R. Billinton, R. Ghajar and J. Satish. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operating Section, 1994. 17 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06563 (1 fiche) (Available on fiche only)

An integrated approach to generator protection / By H.T. Yip. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operating Section, 1994. 13 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06539 (1 fiche) (Available on fiche only)

The Interphase power controller technology / By J. Brochu ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operating Section, 1994. 7 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06560 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Power System Planning and Operating Section (cont'd)

Interruptible load carrying capability of the Alberta interconnected system / By L.W. DeBlois. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operating Section, 1994. 11 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06537 (1 fiche) (Available on fiche only)

A Microprocessor-based digital feeder monitor with high impedance fault detection / By R. Patterson ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operating Section, 1994. 18 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06540 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Power System Protection Subsection

Adequacy evaluation of generating systems containing WECS using simulation techniques / By R. Billinton, X. Cao and R. Ghajar. Montreal : Canadian Electrical Assn, Power System Planning and Operating Section, Power System Protection Subsection, 1994. 17 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06555 (1 fiche) (Available on fiche only)

Advanced numerical distance protection for EHV lines / By S. Wolf. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Protection Subsection, 1994. 6 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06542 (1 fiche) (Available on fiche only)

An Artificial neural network for directional comparison protection of transmission lines / By T.S. Sidhu, M.S. Sachdev and H. Singh. Montreal : Canadian Electrical Assn, Power System Planning and Operating Section, Power System Protection Subsection, 1994. 14 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06548 (1 fiche) (Available on fiche only)

A Digital algorithm for differential protection of parallel feed transmission lines / By M.S. Sachdev, X. Liu and T.S. Sidhu. Montreal : Canadian Electrical Assn, Power System Planning and Operating Section, Power System Protection Subsection, 1994. 12 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06549 (1 fiche) (Available on fiche only)

Error compensation in digital relays for transmission lines / By B. Jayasurya ... et al. Montreal : Canadian Electrical Assn, Power System Planning and Operating Section, Power System Protection Subsection, 1994. 17 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06550 (1 fiche) (Available on fiche only)

A Microprocessor-based accelerating power level detector / By M. Nagpal, W. Zarecki and J.C. Albrecht. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Protection Subsection, 1994. 14 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06543 (1 fiche) (Available on fiche only)

On site transient testing for a series compensation upgrade / By P.G. McLaren ... et al. Montreal : Canadian Electrical Assn, Power System Planning and Operating Section, Power System Protection Subsection, 1994. 11 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06547 (1 fiche) (Available on fiche only)

Open systems relaying / By P.G. McLaren ... et al. Montreal : Canadian Electrical Assn, Power System Planning and Operating Section, Power System Protection Subsection, 1994. 12 p. : *ill., Bibl. Presented at Electricity '94 : a new energy order* MICROLOG 94-06546 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Power System Protection Subsection (cont'd)

- Present day substation protection and control engineering tools / By K. Sridharan and G. Payne. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Protection Subsection, 1994. 12 p. : ill., *Bibl.* Presented at *Electricity '94 : a new energy order* MICROLOG 94-06541 (1 fiche) (Available on fiche only)
- Testing modern protective relays / By R.J. Marttila. Montreal : Canadian Electrical Assn, Power System Planning and Operation Section, Power System Protection Subsection, 1994. 17 p. : ill., *Bibl.* Presented at *Electricity '94 : a new energy order* MICROLOG 94-06551 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Power System Reliability Subsection

- Kootenay Canal runner replacement, from proposal to manufacture / By B. Mahé, D. Thomas and R. Ereneef. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operating Section, Power System Reliability Subsection, 1994. 23 p. : ill., *Bibl.* Presented at *Electricity '94 : a new energy order* MICROLOG 94-06522 (1 fiche) (Available on fiche only)
- The Performance of compact fluorescent lamps and ballasts / By M. Ouellette. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operating Section, Power System Reliability Subsection, 1994. 16 p. : ill., *Bibl.* Presented at *Electricity '94 : a new energy order* MICROLOG 94-06601 (1 fiche) (Available on fiche only)
- Reliability worth : development of a relationship with outage magnitude, duration and frequency / By F.P.P. Turner ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Reliability Subsection, 1994. 9 p. : ill., *Bibl.* Presented at *Electricity '94 : a new energy order* MICROLOG 94-06562 (1 fiche) (Available on fiche only)
- Turbine performance testing using the Intake Current-Meter System (ICMS) / By A.F. Mikhail. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operating Section, Power System Reliability Subsection, 1994. 7 p. : ill., *Bibl.* Presented at *Electricity '94 : a new energy order* MICROLOG 94-06519 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Power Transformer Subsection

- SF6 gas insulated transformers / By S. Menju, K. Toda and Y. Togawa. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Electrical Apparatus Section, Power Transformers Subsection, 1994. 24 p. : ill., *Bibl.* Presented at *Electricity '94 : a new energy order* MICROLOG 94-06588 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Resource Planning & Operation Section

- A Review of electric integrated resource planning in North America / By A. Frayne. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Resource Planning and Operating Section, 1994. 10 p. Presented at *Electricity '94 : a new energy order* MICROLOG 94-06553 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Rotating Machines Subsection

- Shrinking a floating rim design hydraulic generator rotor to improve the air gap mechanical stiffness / By G. Haines. Montreal : Canadian Electrical Assn, Hydraulic Power Section, Rotating Machines Subsection, 1994. 12 p. : ill. Presented at *Electricity '94 : a new energy order* MICROLOG 94-06527 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Rotating Machines Subsection (cont'd)

- Static pilot exciters : an alternative at one fifth the cost / By G.M. Wilkinson. Montreal : Canadian Electrical Assn, Hydraulic Power Section, Rotating Machines Subsection, 1994. 12 p. : ill. Presented at *Electricity '94 : a new energy order* MICROLOG 94-06525 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Station Control and Instrumentation Subsection

- Addition of a distributed control system at Lambton Generating Station / By K. Borovszky ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Thermal and Nuclear Power Section, Station Control and Instrumentation Subsection, 1994. 20 p. : ill. Presented at *Electricity '94 : a new energy order* MICROLOG 94-06533 (1 fiche) (Available on fiche only)
- CRT and keyboard ergonomics / By J.S. Malcolm. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Thermal and Nuclear Power Section, Station Control and Instrumentation Subsection, 1993. 12 p. : *Bibl.* Presented at *Thermal and Nuclear Power Generation Conference* MICROLOG 94-06502 (1 fiche) (Available on fiche only)
- Instrument control philosophy at Point Aconi / By A.J. Farmer. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Thermal and Nuclear Power Section, Station Control and Instrumentation Subsection, 1993. 23 p. : ill., *Bibl.* Presented at *Thermal and Nuclear Power Generation Conference* MICROLOG 94-06510 (1 fiche) (Available on fiche only)
- Non-intrusive coal pipe flow monitors / By P.W. Davall and R.T. Mitura. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Thermal and Nuclear Power Section, Station Control and Instrumentation Subsection, 1994. 28 p. : ill., *Bibl.* Presented at *Electricity '94 : a new energy order* MICROLOG 94-06534 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Station Equipment Subsection

- Development work for the application of 245 kV circuit breakers using a SF6/CF4 gas mixture on the Manitoba Hydro system / By R. Middleton ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Electrical Apparatus Section, Station Equipment Subsection, 1994. 18 p. : ill., *Bibl.* Presented at *Electricity '94 : a new energy order* MICROLOG 94-06585 (1 fiche) (Available on fiche only)
- Interphase power controller : a new device for the steady state power flow management in AC networks / By K. Habashi ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Electrical Apparatus Section, Station Equipment Subsection, 1994. 9 p. : ill., *Bibl.* Presented at *Electricity '94 : a new energy order* MICROLOG 94-06584 (1 fiche) (Available on fiche only)
- Substation voltage uprating / By J. Panek. Montreal : Canadian Electrical Assn, Electrical Apparatus Section, Station Equipment Subsection, 1994. 30 p. : ill. Presented at *Electricity '94 : a new energy order* MICROLOG 94-06583 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Switchgear Subsection

- Application of medium voltage circuit breakers : utility user's perspective / By P.F. Ng and D.F. Peel. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Electrical Apparatus Section, Switchgear Subsection, 1994. 12 p. : *Bibl.* Presented at *Electricity '94 : a new energy order* MICROLOG 94-06580 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Switchgear Subsection (cont'd)

- Medium voltage circuit breaker requirements in industrial applications / By M.D. Maksimcev. Montreal : Canadian Electrical Assn, Switchgear Subsection, 1994. 6 p. : ill., *Bibl.* Presented at *Electricity '94 : a new energy order* MICROLOG 94-06582 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Telecontrol and Telecommunications Section

- A Knowledge-based data acquisition system for Ontario Hydro's central region operation using a PC platform / By B.C. Mitchell and P.G. Morrill. Montreal : Canadian Electrical Assn, Telecontrol and Telecommunications Section, 1994. 11 p. : ill. Presented at *Electricity '94 : a new energy order* MICROLOG 94-06578 (1 fiche) (Available on fiche only)
- SONET applications within the power utility market / By H. Saadat. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Telecontrol and Telecommunications Section, 1994. 14 p. : ill., *Bibl.* Presented at *Electricity '94 : a new energy order* MICROLOG 94-06576 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Thermal and Nuclear Power Section

- CANDU plant life assurance/extension / By E.G. Price, T. Andreef and B.A. Shalaby. Montreal : Canadian Electrical Assn, Thermal and Nuclear Power Section, 1993. 18 p. : ill., *Bibl.* Presented at *Thermal and Nuclear Power Generation Conference* MICROLOG 94-06501 (1 fiche) (Available on fiche only)
- Environmental and public interface for Point Aconi Generating Station, Point Aconi, Nova Scotia / By T.P. Toner. Montreal : Canadian Electrical Assn, Thermal and Nuclear Power Section, 1993. 16 p. Presented at *Thermal and Nuclear Power Generation Conference* MICROLOG 94-06508 (1 fiche) (Available on fiche only)
- On-line waterlancing and sootblower enhancements at Boundary Dam / By D. Cook. Montreal : Canadian Electrical Assn, Thermal and Nuclear Power Section, 1994. 11 p. : ill., *Bibl.* Presented at *Electricity '94 : a new energy order* MICROLOG 94-06536 (1 fiche) (Available on fiche only)
- Protocols and performance specifications for continuous monitoring of gaseous emissions from thermal power generation / By B.D. Williams and J. Jahnke. Montreal : Canadian Electrical Assn, Thermal and Nuclear Power Section, 1994. 7 p. : ill. Presented at *Electricity '94 : a new energy order* MICROLOG 94-06532 (1 fiche) (Available on fiche only)
- Removal of hot asbestos insulation from an operating utility boiler / By M.J. Marsh. Montreal : Canadian Electrical Assn, Thermal and Nuclear Power Section, 1993. 14 p. : ill., *Bibl.* Presented at *Thermal and Nuclear Power Generation Conference* MICROLOG 94-06500 (1 fiche) (Available on fiche only)
- Technological and economic evaluations of the LIMB and Coolside processes / By P.S. Nolan ... et al. Montreal : Canadian Electrical Assn, Thermal and Nuclear Power Section, 1993. 10 p. : ill., *Bibl.* Presented at *Thermal and Nuclear Power Generation Conference* MICROLOG 94-06506 (1 fiche) (Available on fiche only)
- Trenton no. 6 vs. Trenton no. 5 : a comparison of modern and traditional boiler designs / By I.R. Thorpe and C.M. MacKenzie. Montreal : Canadian Electrical Assn, Thermal and Nuclear Power Section, 1993. 8 p. : ill. Presented at *Thermal and Nuclear Power Generation Conference* MICROLOG 94-06504 (1 fiche) (Available on fiche only)

Construction/Commissioning Subsection

Circulating fluidized combustion at Point Aconi Generating Station / By S. Fraser, P. Basu and N.W. Andrews. Montreal : Canadian Electrical Assn., Engineering and Operating Section, Thermal and Nuclear Power Section, Thermal Generation Station Construction and Commissioning Substation, 1993. 17 p. : ill. Presented at Thermal and Nuclear Power Generation Conference MICROLOG 94-06507 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Transmission Section

Development of trapezoidal wire compact conductors in Ontario Hydro / By S.G. Krishnasamy ... et al. Montreal : Canadian Electrical Assn., Engineering and Operating Division, Transmission Section, 1994. 18 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06565 (1 fiche) (Available on fiche only)

Evaluation of ice accretion models using field data : a CEA pilot project / By S.G. Krishnasamy, M.F. Ishac and M. Kastelein. Montreal : Canadian Electrical Assn., Engineering and Operating Division, Transmission Section, 1994. 11 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06571 (1 fiche) (Available on fiche only)

Feasibility study : increasing 500kV transmission line capacity through additional sub-conductors / By G. Barnett and J.H. Duxbury. Montreal : Canadian Electrical Assn., Engineering and Operating Division, Transmission Section, 1994. II, 30 p. : ill. Presented at Electricity '94 : a new energy order MICROLOG 94-06566 (1 fiche) (Available on fiche only)

Field and wind tunnel testing of ice free anemometer : a preliminary report / By S.G. Krishnasamy, M. Kastelein and J. Motycka. Montreal : Canadian Electrical Assn., Engineering and Operating Division, Transmission Section, 1994. 9 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06569 (1 fiche) (Available on fiche only)

Spacer damper spacings to reduce damage due to aeolian and wake induced vibration / By D.G. Havard ... et al. Montreal : Canadian Electrical Assn., Engineering and Operating Division, Transmission Section, 1994. 12 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06568 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Underground Equipment & Design Subsection

Lowering the risk associated with distribution transformers / By C.P. McShane. Montreal : Canadian Electrical Assn., Engineering and Operation Division, Distribution Section, Underground Equipment & Design Subsection, 1994. 9 p. : Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06589 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Underground Subsection

Mobile transformer van / By P.E. Tremblay. Montreal : Canadian Electrical Assn., Engineering and Operating Division, Distribution Section, Underground Subsection, 1994. 20 p. : ill. MICROLOG 94-06594 (1 fiche) (Available on fiche only)

Canadian Electrical Assn. Wood Poles Subsection

Nondestructive strength classification of new wood utility poles / By J. Bodig and R.W. Anthony. Montreal : Canadian Electrical Assn., Engineering and Operating Division, Transmission Section, Wood Poles Subsection, 1994. 14 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06574 (1 fiche) (Available on fiche only)

Presented at Electricity '94 : a new energy order MICROLOG 94-06542 (1 fiche) (Available on fiche only)

Aluminum dross processing in a rotary arc furnace / By M.G. Drouet ... et al. Montreal : Canadian Electrical Assn, 1994. 7 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06592 (1 fiche) (Available on fiche only)

Application of medium voltage circuit breakers : utility user's perspective / By P.F. Ng and D.F. Peel. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Electrical Apparatus Section, Switchgear Subsection, 1994. 12 p. : Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06580 (1 fiche) (Available on fiche only)

An Artificial neural network for directional comparison protection of transmission lines / By T.S. Sidhu, M.S. Sachdev and H. Singh. Montreal : Canadian Electrical Assn, Power System Planning and Operation Section, Power System Protection Subsection, 1994. 14 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06548 (1 fiche) (Available on fiche only)

Assessment of the impact of internal heat gains on the thermal loads in the residential sector / By A. Moreau and S. Stricker. Montreal : Canadian Electrical Assn, 1994. 19 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06604 (1 fiche) (Available on fiche only)

B.C. Hydro oil spill containment program / By A. Krikis and C.J. Fingler. Montreal : Canadian Electrical Assn, Occupational Health and Safety Section, 1994. 11 p. Presented at Electricity '94 : a new energy order MICROLOG 94-06608 (1 fiche) (Available on fiche only)

Capacity upgrading of Mica and Kootenay Canal powerhouse bridge cranes / By J. Pocher. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Hydraulic Power Section, 1994. 21 p. : ill. Presented at Electricity '94 : a new energy order MICROLOG 94-06520 (1 fiche) (Available on fiche only)

Case history : Cross Lake weir in northern Manitoba / By A.G. Kuluk. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Hydraulic Power Section, 1994. 20 p. : ill., Maps. Presented at Electricity '94 : a new energy order MICROLOG 94-06515 (1 fiche) (Available on fiche only)

A Comparison of medium voltage vacuum and SF6 breaker technologies / By D. Koch. Montreal : Canadian Electrical Assn, 1994. 9 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06581 (1 fiche) (Available on fiche only)

Compliance with no net loss of fish habitat policy : Ontario Hydro experience / By G.F. Pope. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Hydroelectric Power Section, Environmental Subsection, 1994. 17 p. : ill., Maps, Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06523 (1 fiche) (Available on fiche only)

Control of vegetation under B.C. Hydro transmission lines using a foliar WIPE-ON device / By R. Roddick ... et al. Montreal : Canadian Electrical Assn, Corporate Resources Division, 1994. 10 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06575 (1 fiche) (Available on fiche only)

Design and construction of Elcher penstock fish screens / By J.G. Matthews and J.W. Taylor. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Hydraulic Power Section, Hydraulic Structures Subsection, 1994. 6 p. : Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06517 (1 fiche) (Available on fiche only)

Electricity '94 : a new energy order (1994 : Toronto, Ont.) (cont'd)

Design considerations for oil lift retrofit / By J. Seyler. Montreal : Canadian Electrical Assn, 1994. 17 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06521 (1 fiche) (Available on fiche only)

Detection of internal faults in distribution transformers / By T. Einarson, N. Cuk and M. Fischer. Montreal : Canadian Electrical Assn, Electrical and Operating Division, 1994. 10 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06606 (1 fiche) (Available on fiche only)

Development of a commercial radio frequency/vacuum kiln for drying softwood lumber / By R. Swick, B. Neilson and S. Avramidis. Montreal : Canadian Electrical Assn, 1994. 12 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06593 (1 fiche) (Available on fiche only)

Development of an on-line ozone monitoring system for air cooled generators / By D.E. Franklin ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Hydraulic Power Section, Hydraulic Plant Equipment Subsection, 1994. 20 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06530 (1 fiche) (Available on fiche only)

Development of consistent transmission outage data reporting and analysis procedures by Alberta utilities / By A.A. Chowdhury ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operating Section, 1994. 13 p. : Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06564 (1 fiche) (Available on fiche only)

Development of trapezoidal wire compact conductors in Ontario Hydro / By S.G. Krishnasamy ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Transmission Section, 1994. 18 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06565 (1 fiche) (Available on fiche only)

Development work for the application of 245 kV circuit breakers using a SF6/CF4 gas mixture on the Manitoba Hydro system / By R. Middleton ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Electrical Apparatus Section, Station Equipment Subsection, 1994. 18 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06585 (1 fiche) (Available on fiche only)

A Digital algorithm for differential protection of parallel feed transmission lines / By M.S. Sachdev, X. Liu and T.S. Sidhu. Montreal : Canadian Electrical Assn, Power System Planning and Operation Section, Power System Protection Subsection, 1994. 12 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06549 (1 fiche) (Available on fiche only)

Distribution system voltage stabilization and power quality enhancement using modulated filter / By A.M. Sharaf, H. Huang and L.A. Snider. Montreal : Canadian Electrical Assn, Distribution Section, 1994. 12 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06596 (1 fiche) (Available on fiche only)

Effects of power plant operations on NOx emissions / By D.W. Smith. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Thermal and Nuclear Power Section, Environmental Requirements Subsection, 1994. 17 p. : ill. Presented at Electricity '94 : a new energy order MICROLOG 94-06535 (1 fiche) (Available on fiche only)

Electrical savings from fan speed reduction in lumber dry kilns / By A.T. Chow, P. Garrahan and G. Fleury. Montreal : Canadian Electrical Assn, 1994. 9 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06590 (1 fiche) (Available on fiche only)

Electricity '94 : a new energy order (1994 : Toronto, Ont.) (cont'd)

- Electricity '94 : a new energy order : home grown hydro, the key to regional and international business expansion / By P.A. Wiebe. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Hydraulic Power Subsection, 1994. 19 p. : ill., Maps, Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06514 (1 fiche) (Available on fiche only)
- Electronic wall mounted line-voltage thermostats for electric space heating systems / By L. Handfield ... et al. Montreal : Canadian Electrical Assn, 1994. 20 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06600 (1 fiche) (Available on fiche only)
- Energy savings through proper selection of small pumps / By T. Kaminski and M. Ahd. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Distribution Section, 1994. 14 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06603 (1 fiche) (Available on fiche only)
- Error compensation in digital relays for transmission lines / By B. Jeyasurya ... et al. Montreal : Canadian Electrical Assn, Power System Planning and Operation Section, Power System Protection Subsection, 1994. 17 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06550 (1 fiche) (Available on fiche only)
- Evaluation of aged composite insulators from Brighton and Nova Scotia / By Y. Beauséjour, J. Kuffel and A.J. Vandermaar. Montreal : Canadian Electrical Assn, Engineering and Operations Division, Power Systems Planning and Operations Section, Electrical Performance of Insulators Committee, 1994. 20 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06538 (1 fiche) (Available on fiche only)
- Evaluation of ice accretion models using field data : a CEA pilot project / By S.G. Krishnasamy, M.F. Ishac and M. Kastelein. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Transmission Section, 1994. 11 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06571 (1 fiche) (Available on fiche only)
- Evaluation of the effectiveness of man-made spawning and rearing habitat in reservoirs and streams / By P. McKee, K. Reid and K. Schiefer. Montreal : Canadian Electrical Assn, Hydraulic Power Section, Environmental Subsection, 1994. 20 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06524 (1 fiche) (Available on fiche only)
- Evaluation of the effectiveness of water release as a mitigation to protect fish habitat / By A.F. Lewis and A.C. Mitchell. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operating Section, 1994. 17 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06528 (1 fiche) (Available on fiche only)
- Fatigue and fracture properties of aluminum casting alloys for line hardware components / By L. Malik, G. Bellamy and A.S.H. Lam. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Transmission Section, Line Hardware Subsection, 1994. 19 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06573 (1 fiche) (Available on fiche only)
- Feasibility study : increasing 500kV transmission line capacity through additional sub-conductors / By G. Barnett and J.H. Duxbury. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Transmission Section, 1994. 11, 30 p. : ill. Presented at Electricity '94 : a new energy order MICROLOG 94-06566 (1 fiche) (Available on fiche only)

Electricity '94 : a new energy order (1994 : Toronto, Ont.) (cont'd)

- Field and wind tunnel testing of ice free anemometer : a preliminary report / By S.G. Krishnasamy, M. Kastelein and J. Motycka. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Transmission Section, 1994. 9 p. : ill., Bibl. Presented at Electricity '94 : a new energy order MICROLOG 94-06569 (1 fiche) (Available on fiche only)
- Fuzzy logic in dispatch modelling / By M.E. El-Hawary. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operating Section, Generation System Planning and Operation Subsection, 1994. 15 p. : ill., Bibl. Electric fault location

Detection of internal faults in distribution transformers / By T. Einarson, N. Cuk and M. Fischer. Montreal : Canadian Electrical Assn, Electrical and Operating Division, 1994. 10 p. : *Ill.*, *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06606 (1 fiche)

A Microprocessor-based accelerating power level detector / By M. Nagpal, W. Zarecki and J.C. Albrecht. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Protection Subsection, 1994. 14 p. : *Ill.*, *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06543 (1 fiche)

A Microprocessor-based digital feeder monitor with high impedance fault detection / By R. Patterson ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operation Section, 1994. 18 p. : *Ill.*, *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06540 (1 fiche)

Electric generators

Adequacy evaluation of generating systems containing WECS using simulation techniques / By R. Billinton, X. Cao and R. Ghajar. Montreal : Canadian Electrical Assn, Power System Planning and Operation Section, Power System Protection Subsection, 1994. 17 p. : *Ill.*, *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06555 (1 fiche)

Design considerations for oil lift retrofit / By J. Seyler. Montreal : Canadian Electrical Assn, 1994. 17 p. : *Ill.*, *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06521 (1 fiche)

An Integrated approach to generator protection / By H.T. Yip. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operation Section, 1994. 13 p. : *Ill.*, *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06539 (1 fiche)

Electric generators (cont'd)**Windings**

Development of an on-line ozone monitoring system for air cooled generators / By D.E. Franklin ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Hydraulic Power Section, Hydraulic Plant Equipment Subsection, 1994. 20 p. : *Ill.*, *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06530 (1 fiche)

Electric heating

Electronic wall mounted line-voltage thermostats for electric space heating systems / By L. Handfield ... et al. Montreal : Canadian Electrical Assn, 1994. 20 p. : *Ill.*, *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06600 (1 fiche)

Electric industries

See also Electric utilities

Electric insulators and insulation

Evaluation of aged composite insulators from Brighton and Nova Scotia / By Y. Beauséjour, J. Kuffel and A.J. Vandermaar. Montreal : Canadian Electrical Assn, Engineering and Operations Division, Power Systems Planning and Operations Section, Electrical Performance of Insulators Committee, 1994. 20 p. : *Ill.*, *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06538 (1 fiche)

Electric interference

Interference suppression in swept frequency chirp echo sounding systems / By P. LeFevre and R.H. Khan. St. John's : Memorial University of Newfoundland, Centre for Cold Ocean Resources Engineering, 1993. 5 p. : *Bibl.* (C-CORE publication / Memorial University of Newfoundland, Centre for Cold Ocean Resources Engineering : 93-21) In *Proceedings of the Institute of Electrical and Electronics Engineers, Inc., NECEC '93*. MICROLOG 94-06475 (1 fiche) (Available on fiche only)

Electric light and power industry See Electric utilities**Electric lighting**

Advance solid-state lighting : prospects and applications / By S.B. Peralta and H.E. Ruda. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Distribution Section, Commercial/Institutional Subsection, 1994. 13 p. : *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06602 (1 fiche)

Electric lines

See also Electric power transmission

An Artificial neural network for directional comparison protection of transmission lines / By T.S. Sidhu, M.S. Sachdev and H. Singh. Montreal : Canadian Electrical Assn, Power System Planning and Operation Section, Power System Protection Subsection, 1994. 14 p. : *Ill.*, *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06548 (1 fiche)

A Digital algorithm for differential protection of parallel teed transmission lines / By M.S. Sachdev, X. Liu and T.S. Sidhu. Montreal : Canadian Electrical Assn, Power System Planning and Operation Section, Power System Protection Subsection, 1994. 12 p. : *Ill.*, *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06549 (1 fiche)

Error compensation in digital relays for transmission lines / By B. Jayasuraya ... et al. Montreal : Canadian Electrical Assn, Power System Planning and Operation Section, Power System Protection Subsection, 1994. 17 p. : *Ill.*, *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06550 (1 fiche)

Feasibility study : increasing 500kV transmission line capacity through additional sub-conductors / By G. Barnett and J.H. Duxbury. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Transmission Section, 1994. ii, 30 p. : *Ill.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06566 (1 fiche)

Electric lines (cont'd)

Overhead distribution line models for harmonics studies / By M. Nagpal, W. Xu and H.W. Dommel. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operation Section, Analytical Techniques of Insulation Co-ordination Committee, 1994. 11 p. : ill., *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06556 (1 fiche)

Poles and towers

Nondestructive strength classification of new wood utility poles / By J. Bodig and R.W. Anthony. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Transmission Section, Wood Poles Subsection, 1994. 14 p. : ill., *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06574 (1 fiche)

State-of-the-art on direct embedment foundations for pole structures / By K.S.R. Prasad, A.S.J. Swarnidas and A.K. Haldar. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Transmission Section, Line Design and Security Subsection, 1994. 10 p. Presented at *Electricity '94* : a new energy order. MICROLOG 94-06570 (1 fiche)

British Columbia

Control of vegetation under B.C. Hydro transmission lines using a foliar WIPE-ON device / By R. Roddick ... et al. Montreal : Canadian Electrical Assn, Corporate Resources Division, 1994. 10 p. : ill., *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06575 (1 fiche)

Electric power**Supply and demand**

Ontario's demand/supply planning experience : lessons for the future / By S.K. Snelson. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operating Section, Generation System Planning and Operation Subsection, 1994. 14 p. : ill., *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06552 (1 fiche)

Electric power and heat cogeneration See Cogeneration of electric power and heat

Electric power distribution

See also Electric lines; Electric substations; Electric power transmission

Status and trends in distribution automation / By R.M. Godfrey and P.A. Robiou. Montreal : Canadian Electrical Assn, 1994. 6 p. : ill., *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06579 (1 fiche)

Electric power system stability

Distribution system voltage stabilization and power quality enhancement using modulated filter / By A.M. Sharaf, H. Huang and L.A. Snider. Montreal : Canadian Electrical Assn, Distribution Section, 1994. 12 p. : ill., *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06596 (1 fiche)

Hierarchical power system reliability evaluation using the Canadian Electrical Association database / By R. Billinton, R. Ghajar and J. Satish. Montreal : Canadian Electrical Assn, Engineering and Operation Division, Power System Planning and Operation Section, 1994. 17 p. : ill., *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06563 (1 fiche)

Interphase power controller : a new device for the steady state power flow management in AC networks / By K. Habashi ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Electrical Apparatus Section, Station Equipment Subsection, 1994. 9 p. : ill., *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06584 (1 fiche)

Reliability based design of transmission line structure foundations / By A.M. DiGiola, F.B. Newman and L.F. Rojas-Gonzalez. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Transmission Section, Line Design and Security Subsection, 1994. 17 p. : ill., *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06572 (1 fiche)

Electric power system stability (cont'd)

Reliability worth : development of a relationship with outage magnitude, duration and frequency / By F.P.P. Turner ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Reliability Subsection, 1994. 9 p. : ill., *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06562 (1 fiche)

Electric power systems**Protection**

A Knowledge-based data acquisition system for Ontario Hydro's central region operation using a PC platform / By B.C. Mitchell and P.G. Morrill. Montreal : Canadian Electrical Assn, Telecontrol and Telecommunications Section, 1994. 11 p. : ill., *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06578 (1 fiche)

Electric power transmission

See also Electric power distribution; Electric lines
Adapting controllable series capacitors to different transmission purposes / By L. Angquist, P. Halvarsson and H. Othman. Montreal : Canadian Electrical Assn, Engineering and Operating Division, 1994. 11 p. : ill., *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06559 (1 fiche)

Development of consistent transmission outage data reporting and analysis procedures by Alberta utilities / By A.A. Chowdhury ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operating Section, 1994. 13 p. : *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06564 (1 fiche)

The Interphase power controller technology / By J. Brochu ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operating Section, 1994. 7 p. : ill., *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06560 (1 fiche)

Kayenta advanced series compensation operational experience / By P. Krause ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Power System Planning and Operation Section, SVC & HVDC Controls Committee, 1994. 11 p. : ill., *Bibl.* Presented at *Electricity '94* : a new energy order. MICROLOG 94-06561 (1 fiche)

Electric power-plants

See also Hydroelectric power plants; Nuclear power plants

Design and construction

Addition of a distributed control system at Lambton Generating Station / By K. Borovszky ... et al. Montreal : Canadian Electrical Assn, Engineering and Operating Division, Thermal and Nuclear Power Section, Station Control and Instrumentation Subsection, 1994. 20 p. : ill., *Bibl.* Presented at *Electricity '94* : a new energy order. FICHE COLLECTIONS

Documents from CRI are available on microfiche through various subscription plans ranging from the complete collection to subsets by level of government (jurisdiction), geographic area, or subject.

JURISDICTION COLLECTIONS

Federal: titles issued at the federal level, both depository and non-depository

Provincial: titles issued by provincial governments

Local/Municipal: titles issued by local governments

GEOGRAPHIC COLLECTIONS

Alberta

Atlantic Provinces: Newfoundland, N.S., N.B., P.E.I.

British Columbia

Manitoba/Saskatchewan

Northern Regions: N.W.T., Yukon Territory, Arctic regions

Ontario

Quebec

SPECIAL COLLECTIONS

Critical Issues: documents from Canadian jurisdictions on issues that receive public attention and are the subject of debate

Fisheries and Oceans Canada: documents published by the Dept. of Fisheries and Oceans

Canada Centre for Mineral and Energy Technology (CANMET): documents published or contracted out by the Centre

Depository Collection: documents published by the federal government issued through the Federal Depository Program

FEARO: documents published by the Canadian Environmental Assessment Research Council (CEARC) and/or the Federal Environmental Assessment Research Office (FEARO)

Non-Depository Collection: documents published by the federal government, not issued through the Federal Depository Program. Available as a complete collection or as a science or social science sub-collection

ONTERIS (ON COLLECTION): ONTERIS documents for which we have microfilming rights and which meet our inclusion policy

COLLECTIONS DE MICROFICHES

Les publications incluses dans l'IRC sont en vente sur microfiches, en collection complète ou en collections plus petites regroupant des titres par juridiction, par aire géographique ou par matière.

COLLECTIONS GOUVERNEMENTALES

CA **Fédéral :** publications émises par le gouvernement fédéral, régies ou non par le Programme de dépôt

PR **Provincial :** publications émises par les gouvernements provinciaux.

MU **Local/Municipal :** publications émises par les gouvernements locaux et municipaux

COLLECTIONS GÉOGRAPHIQUES

AL **Alberta**

AP **Provinces de l'Atlantique :** T.-N., N.-É., N.-B., Ile-du-Prince-Édouard

BC **Colombie-Britannique**

Agriculture

Agri-Food Competitiveness Council : Annual report 1991-92. 94-06894/1
Agri-Food Competitiveness Council : Annual report 1992-93. 94-06895/1
Agricultural capability classification for reclamation : working document. 94-06775/2
Agricultural programs 1994-95. 94-06415/2
Agricultural statistics and review of agriculture, 1992-93, vol. 27. 94-06421/1
Conseil de la compétitivité agro-alimentaire : Rapport annuel 1991-92. 94-06894/1
Conseil de la compétitivité agro-alimentaire : Rapport annuel 1992-93. 94-06895/1
Les Corps gras au Canada : Revue annuelle 1992. 94-06901/1
Étude des méthodes sécuritaires utilisées par les agriculteurs du Nouveau-Brunswick pour appliquer des pesticides. 94-06320/1
Fats and oils in Canada : Annual review 1992. 94-06901/1
Grain truck weight study II. 94-06910/1
Guide to better on-farm demonstrations. 94-06914/1
Horticulture Industry, organizing for the future : human resource issues and opportunities : national report. 94-06952/2
Industrie horticole, planifier pour l'avenir : les ressources humaines, enjeux et possibilités : rapport national. 94-06951/2
Livestock market review 1993. 94-06885/1
Native legumes for reclamation in Alberta. 94-06777/2
Nova Scotia Agricultural College : Report of the principal 1992-93. 94-06429/1
Ontario. Ministère de l'agriculture et de l'alimentation : Rapport annuel 1992-93. 94-06807/1
Ontario. Ministry of Agriculture and Food : Annual report 1992-93. 94-06807/1

Ownership and farm transfers : issues for multi-family businesses. 94-06785/1
Potato varieties in Canada 1993 -- 5th ed.. 94-06876/1
Proposed wetland management policy for the agricultural zone of Saskatchewan. 94-06913/1
Revue du marché des bestiaux 1993. 94-06885/1
The Singapore market for beef products. 94-06672/1
The Singapore market for bottled water products. 94-06671/1
The Singapore market for pork products. 94-06673/1
The Status of land management practices on agricultural land in Canada : compiled from the 1991 Census of Agriculture. 94-06712/1
Survey of pesticide safety practices of growers across New Brunswick, summer 1993. 94-06320/1
Technology in the food and beverage industry in Canada. 94-06591/1
Year three report card survey on recommendations made in the report to ministers of agriculture task force on competitiveness in the agri-food industry. 94-06908/1
Year two report card survey on recommendations made in the report to ministers of agriculture task force on competitiveness in the agri-food industry. 94-06907/1

Alberta

Achievement testing program, provincial report : June 1993 administration. 94-06891/2
Agricultural capability classification for reclamation : working document. 94-06775/2
Alberta. Alberta Environmental Protection : Annual report 1992-93. 94-06881/1
Alberta Automobile Insurance Board : Annual report 1993. 94-06903/1
Alberta birds, 1971-80, vol. 2, passerines. 94-06784/3
Alberta business program guide 1993. 94-06896/1

Alberta Foundation for Nursing Research : Annual report 1993-94. 94-06905/1
Alberta. Private Colleges Accreditation Board : Annual report 1993-94. 94-06904/1
Alberta. Safety Codes Council : Annual report 1993-94. 94-06902/1
Alberta transfer guide : a guide to transfer credit at Alberta post-secondary institutions 1994-95. 94-06892/2
Alberta Wellsite Reclamation Criteria Workshop : proceedings. 94-06776/3
Alberta's apprenticeship system : a model of excellence. 94-06953/1
An Annotated bibliography of nutrient loading on the Peace, Athabasca, and Slave rivers. 94-06652/2
Artificial substrata as quantitative sampling devices of benthic macroinvertebrates in flowing water habitats. 94-06920/1
Calgary GoPlan : environmental/recreational open space considerations, potential transportation routes. 94-06944/1
Canadian Pacific Limited, derailment, train no. 1-948-08, mile 66.03, Brooks subdivision, Brooks, Alberta, 08 February 1991. 94-06454/1
Canadien Pacifique limitée, déraillement, train numéro 1-948-08, point milliaire 66,03, subdivision Brooks, Brooks (Alberta), 8 février 1991. 94-06454/1
Court-connected family mediation programs in Canada. 94-06955/1
Delta basins contaminant survey : muskrat collections in the Athabasca River Delta, December 1992. 94-06651/1
Development of consistent transmission outage data reporting and analysis procedures by Alberta utilities. 94-06564/1
Dissolved oxygen requirements for fish of the Peace, Athabasca and Slave River basins. 94-06937/2
Drilling waste disposal : general document. 94-06783/2

- East Village area redevelopment plan and background information. 94-06336/1
- Ecoregions of Alberta 1992. 94-06883/1
- Edmonton (Alta.) : Annual report 1993. 94-06882/1
- Emergent insect sampling with light traps, Upper Athabasca River, September 1993. 94-06643/1
- Evaluation of aged composite insulators from Brighton and Nova Scotia. 94-06538/1
- Forest insect and disease conditions in west-central Canada in 1993, and predictions for 1994. 94-06890/1
- Frost and other climate-related damage of forest trees in the prairie provinces. 94-06334/1

MICROMEDIA'S FAMILY OF

Canadian Reference Sources

Canadian Index

Three indexes in one: news, business and general periodicals. Current subject and name indexing for articles from 10 daily newspapers and 600 periodicals.

Canadian Index on CD ROM: CBCA OnDisc

Over 2 million citations from the past ten years of the predecessors of *Canadian Index*, plus thousands of informative abstracts.

Full text newspaper articles: CNI Clips

Complete copies of articles marked as Clips in the *Canadian Index*.

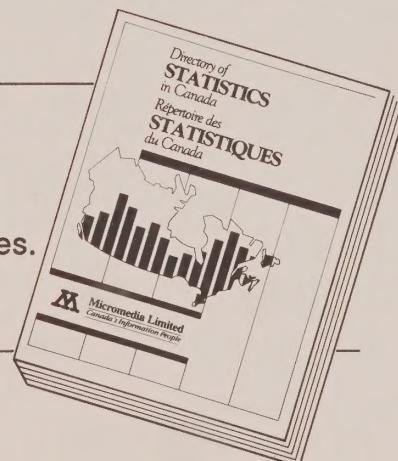

Government publications and research

Current Canadian government reports, indexed and abstracted in the *Canadian Research Index* and available through the *Microlog* clearinghouse service.

Statistics

The only reference guide available to Canadian statistical data sources.

Education

Indexing and abstracting of current Canadian research in education, supported by a document delivery service.
